(By Herb King)

Well, Dear Readers, at least I have this much satisfaction—Editor Bob had to read what I had written before he got busy with his blue pencil.

And he calls me an unsophisticate. Then comes right over and kidnaps one of our professors so that he can find out the botanical name of a sunflower.

Still speaking of the dratted things how do you get them when we have no Roosevelt buttons? Many request but no buttons. No campaign literature but some heavy humor in a spetch on canned dog food.

And all the while sunflowers continue to bloom luxuriantly.

N. B. Weather reports indicate killing frosts culminating in heavy snowfalls and landslides early in November.

Bloom on, Helianthus Annus—until then.
BED TIME STORY.

And in those days Mahatma "Psychiana" Robinson took Willis Mahoney upon a mountain and showed him all the world and its cities spread out before him. (Particularly, Klamath Falls.)

He also showed him Oregon. Gave him a peek at Washington, D. C.

Willis descended from the mountain. How this was done, no man knows for of a certainty he did not come down to earth.

Klamath was briefly his. Oregon would have none of him. Now he grabs for McNary's senatorial toga. Epilogue.

Out of the future we hear him drawing plaintiff melodies from a second fiddle with a busted G string.

Evening news.

3503 Dr. Tenney Accepts "Psychiana" Position

Dr. C. W. Tenney, who for the past year was in charge of the Institute of Christian Education at the University of Idaho, has accepted a position as assistant to Dr. Frank B. Robinson.

Dr. Robinson is out of town a great deal of the time and had to have someone to assist him in his work.

Dr. Tenney was for 16 years president of Wesleyan college and for 14 years president of Gooding college.

Dr. Robinson is holding a convention at Los Angeles for his students and will be gone most of the latter part of this month, and has a large amount of mail to answer each day. Dr. Tenney will assist with this. A new dictograph was installed at the office Thursday.
