GOD

BY DR. FRANK B. ROBINSON

We Bow to the Public

This column makes its appearance to bring to our American people first-hand knowledge of the greatest Power this world can ever know—the Power of God. To date, the Power of God is practically unknown on the earth. If it were known, the bloodshed, the suffering, the horrors and the misery of war could never be. So then, knowing that such a Power really exists, and is available to all, this column will try, so very hard, to bring to the masses—not theories of God, for we have none—but the actual and literal Power of God. When that is done, and when our fellow Americans finally open their eyes to the stupendous fact that all the Power of the Creator is available to each and every one of them, not so much “above the sky” as “here and now,” we shall see a changed world.

Wars will cease. Mad dictators shall never again raise their heads to disturb the peace of a world, which, while it may not know too much about God, certainly hungers for the truths of God. For we do stand on the verge of the greatest Spiritual Awakening humanity has ever seen. The Power to bring this about exists. This Spiritual Awakening will not come through any one man. It will not come as a result of any particular theological philosophy. It will bloom forth overnight. Then man shall know that God Almighty has never been separated from the human race, but, to the contrary, has always been available. Many things have kept knowledge of this mystical Power of God from the human race. We are not concerned with them. Our one and only concern is to bring to humanity, as speedily as possible, actual knowledge of an actual Spiritual Power which is available to all here and now. That Power is the Spirit of God. Every normal human being, regardless of theological belief, indeed without any theological belief, can find and know the literal Power of the Creator—here and now.

This column has no creed, dogma, ritual, or rite of its own to advance.

Maybe we have too many of these. Maybe the simplicity of the Power of God has been hidden from men by our own traditions. However that may be, all denominations, all creeds, all men and women without religious affiliation should be anxious, in these troubled times, to read what the Power of God can do, here and now, for them all.

In these troubled, perplexed times, seems to me the only thing that can bring permanent peace, joy, happiness to a suffering humanity is the Power of God. Long before we had creeds, dogmas, even churches, the invisible Power of the Spirit of God was at work creating, creating, creating. Millions of eons ago, long before the human race was thought of . . . away back in the beginning—is God. And, regardless of what our ideas of God may be, you may rest assured of one thing—GOD STILL LIVES.

The author of this column does not want to do big things for God. He does not know enough about God to do big things. But it may be that in our quiet little talks together, we may find a common basis of experience in which the Power of God may become the most vital, active Principle in our lives. If that happens, the whole earth will rejoice. Most certainly Almighty God has the power and ability to manifest to every one of us. Not “after we die” but “before we die.” And if it should be possible that you and I can actually find and use the Power of God here and now—is there any right thing that Power cannot accomplish in our lives? Of course not. How long can this war last if the Power of God steps into the picture?

So then, as we spend a few moments together every day, and as we quietly talk about God, we may possibly find the answer to the sufferings of the world. We may discover the mis-alignment which exists between man and God, which mis-alignment must have been brought about by man's ideas of God; certainly not by God.

WITH

GOD

BY DR. FRANK B. ROBINSON

In the Beginning

In the beginning—and that's a long way back—this universe had an intelligent Creator. That Creator must still exist. But "in the beginning" precludes anything farther back than that. So then, no matter when or where that beginning may have been, at the back of it all was the Creator. We have called that Creator—God. Too bad we didn't stop right there. For had we stopped there—had man recognized only "THE CREATOR" and the Power which must be IN the Creator, this old world might have been saved a lot of trouble.

It makes no difference what sort of a creation it was. Whether the Creator, by one miraculous act called man into being from the dust of the earth, or whether, as the scientists tell us, it all started from a fire-mist—it makes no difference whatsoever so far as I can see. The one all-important thing is that at some time, in some manner, in some way, LIFE came to this earth. And that Life was a direct creation of God. And that Life WAS God. It could not have been anything else but God. No matter how, or of what the physical body was first composed, the active Life-Principle of that body was, and still is—the Spirit of the Creator—God.

The Christian Bible relates that at the creation of man, "God breathed into his nostrils the breath of Life." Then it must follow that as long as man remains a living soul—a living being—that "breath of Life," or the Spirit of God must remain the active motivating Principle of that man. And this applies to all men—not just a few. So then, you and I possess, and always have possessed, in us, every hour so long as we live—the Life which is God. That opens up a realm of vast possibilities does it not? For if we have in us, the Life which was placed there by Almighty God—in the beginning,

then does it not follow that in this Life which is God, we have also the Powers which are God?

What sort of a Power must it have been that was capable of bringing this vast universe with its celestial sphere into being, without aid from anyone? What sort of a Power must it have been that was able to say "Let there be Light"—and there was Light? What sort of a Power must it be that gives unto you and me the power to walk, to talk, to think, to plan, to enjoy life and to recognize the Power of the Creator? Certainly not a human Power. And the quiet thought today is that the Life which God placed in us at the beginning of creation—is still in us.

That Life is transmitted through us to our children—but it must still be the Life of God. There is no other sort of Life. For all this happened "in the beginning." And you can't go back of that, can you? None other was capable of creating Life. Nor was any other capable of separating the Power of the Life-Giver from the Life.

This is a quiet thought well worth pondering over. In it is wrapped up vast potentialities of Power. Vast potentialities of wisdom. Vast potentialities of Creation. Vast potentialities of peace. For the Creator must have been, and still must be—all of these. And the Life you live here and now, and the Life your children live—came from the Creator—"in the beginning." And that Life, we have seen, is God. Your invisible Life—the Power which motivates you and which makes you a "living soul" must be, indeed is—the Life of God. Think that over quietly. Grasp the tremendous possibilities of your little Life, when you realize the astounding fact that "GOD BREATHED INTO MAN'S NOSTRILS THE BREATH OF LIFE."

GOD

BY DR. FRANK B. ROBINSON

What Can God Do For You?

In our last little quiet talk about God, we discovered that the Life and Power of God both live in us. We went away back to the very beginning of all things when there was no earth, no sky, no anything. And then, in some manner all unknown to us, the Creator of all Life brought to this earth—the Life Principle. Man was formed and into the nostrils of man Almighty God breathed his own Life. We saw too that as long as we live on the earth, whether we know it or not, the motivating principle of each of us is the invisible Spirit of the Creator—God.

We have never looked at it in this way before—have we? We never for one moment thought we were as close to God as we really are. In some strange manner most of us have had the idea that personal contact with Almighty God our Creator has been reserved for “after death” when, as a matter of fact, the very opposite is the fact. It is in and through life that God manifests in us. God may, or may not manifest in us after death—but we do know that just as long as we live here on the earth, we have in us, yes, at the very core of us—the Life that is God.

When we pass on, this body decays. The undertaker comes along and either buries or cremates it. That is the last of it. This physical body can never be resurrected as it once existed here on earth. So you see, the time and place to discover God is not after we die but before we die. Right now.

You may say, “But can that be done?” Well, brother or sister, if the invisible Spirit of God lives in you—if it gives you Life—if it is the motivating Power behind all your actions, why cannot you know that Power? Why cannot you get acquainted with the Life which is God in you? And this is perhaps the most staggering discovery of the ages. For if Almighty God breathed the breath of Life into us all, and if that breath still lives in us as long as we live, Almighty God did that for the

express purpose of making that Life which is God known to you.

The Spirit of God, which created this universe is far too intelligent to implant the very Life which is God in you, and then ordain it that you never can discover either that Life, or the Power of that Life which is God in you. There would be no sane motive in that. Quite to the contrary, God implanted his Life in you, and his Power in you, in order that you may have available, at all times, and in any emergency, sufficient of the Power of God to handle that emergency. That is why God created you in the first place. And that is why you have the Spirit, or the Life of God in you, in the second place.

How foolish then for any of us to think that the Infinite God, after having given his own life to us, took his departure for shores unknown, never leaving open a single channel whereby we may draw upon the Life of God in us. I do not care to believe that. Neither do you. But you see what an immense vista of Power is opened up to you through the indwelling in you of the Spirit of Almighty God—do you not? There exists, right in you, and available to you at any hour of the day or night, more of the Spiritual Power and Life of God than you will ever be able to use. And this Power, and this Life of God may be used by every reasoning American—now.

There is positively nothing good for you that the unseen Power of God in you cannot bring into being for you. This applies nationally and internationally as well as individually. So quietly think of the Great Unseen Forces of God which lie in your hands. Utterly limitless in their Power to eliminate evil. And someone is bound to ask the question here—“Can these invisible Forces of God be used to eliminate Hitler and Mussolini, and Hirohito?” Yes they can. And later on in these quiet talks I shall show you how that may be done.

GOD

BY DR. FRANK B. ROBINSON

Proving God Lives In You

In this quiet talk about God, shall we prove, beyond a shadow of a doubt that God, the Infinite Spirit and Creator of all Life actually lives, with all the Power that implies, in you? Wouldn't it be a wonderful thing if I could? Would it not be a much more wonderful thing if I could show you, by logic and reason that the same Spirit of Life God put into the first created couple still exists in you? Well, that is exactly what this little talk together will do. It is so simple—this existence of God, that oftentimes I marvel why the human race did not grasp the simple fact of the existence of God in us all, ages ago. I cannot for the life of me understand why our old fathers insisted on making God a mystery when as a matter of fact, the existence of God is the most beautifully simple thing the human race has ever been asked to grasp.

Where did you come from? How did you come to be born? From whence did you receive the Life of God? How did it come into your physical body? Let us see. One hundred years ago none of us were here. Our parents met, and they fell in love. They married according to the laws of God and the land. And then, in mutual love, they complied with the divine Law of God governing childbirth, and nine months later you popped along. Now your parents did one thing and one thing only. They made it physically possible for the male germ of Life, the spermatozoa, and the female germ of Life, the ovum, to meet. And there they stopped. Right there. There is nothing more they could have done, for, at that very point, **SOME OTHER POWER TOOK COMPLETE CHARGE OF THE BUILDING OF YOUR BODY.**

It took those two germs, united them, and performed chemical and physiological problems which have never been duplicated in any chemical laboratory. It performed the most amazing series of changes and growth. They stagger the mind

when one considers them. But this Unseen Power, which took complete charge of the building of your body knew just how to perform those amazing changes.

And then, some nine months later, there was presented to your parents—YOU. A perfectly formed human being, possessing the Life of God in it. Did your parents originate the **LIFE PRINCIPLE** in you? They could not have done that, for all they did was make a physical union whereby two pieces of protoplasm met. The building of your body from that point on was accomplished by the Invisible Power of God, which came into your body, and which still lives there—right in you.

Do you think for a moment that after God had presented you to your loving parents he said, "There you are—there's your baby—I'm leaving and it can paddle its own canoe from now on." Of course not. For that same Spirit of Life, that wonderful Power of God which changed those two little germs into a human body, still exists in that body. Else—where is that little baby? Where is it? No—the simple fact is that the Spirit of God came into your physical body as the motivating Power, and is still there. And it always will be there as long as you live.

When the human race fully understands what it means to have the fullness of the Power of the Spirit of God living in a human body, that last enemy of man, death, will have to go also. For God has always been greater than evil. Life has always been stronger than death. And the Life and the Powers of God, in you, intelligently recognized and used, can make you an overwhelming victor in every battle Life has. In fact, when the fullness of God in you becomes recognized, Life has no battles. So think upon the amazing fact that the God who made you a physical body, still lives, with all Powers, in that body. In you.

GOD

BY DR. FRANK B. ROBINSON

Universal Facts

You will notice that so far, in our little quiet talks together about God, we have not made one single statement with which any of the eleven major religious systems on the earth can disagree. Incidentally, there are eleven major religious systems. Each worships a different God, and, with the exception of Mohammedanism, each is far older than our Christian religion, which had its inception about 1900 years ago.

All of these systems of theology agree substantially on the points made by this column so far. Not a single preacher, rabbi, or priest will deny that in the beginning God created the universe, including man. None will deny that Almighty God, in that creation, breathed into man's nostrils the Breath of Life. In other words, God originated human life on this earth, and on whatever other earths there may be, if any. None will deny that the Spirit of Life, or the Spirit of God still maintains that Life in each of us. If that were not so, Life would vanish instantly from the earth.

If the Spirit of God should be suddenly withdrawn from the earth, death—absolute and complete death would instantly occur. All human, animal, and plant life would cease. Earth would be an empty, dead spot for sure. So then, because there is life on the earth, we may very safely assume that Almighty God still lives, and still manifests in every human being. There could not have been two authors of Life. There were not two Gods. Only one. And that one the same today and always. So there can be no argument as to the existence of God, just so long as human or other Life exists upon the earth.

Seems to me then, that the problems which are vexing a perplexed

world should be subject to immediate solution. They are. It may be that many of us will have to revamp some of our theories of God before the truths of God become finally and universally known. For if God exists, and if God exists in us, then all the wisdom, all the intelligence, all the power, all the might which lies in Almighty God absolutely must be available to us all. How could it be any other way?

How could the Spirit of God exist in each of us, and we not be able to draw upon or call upon the totality of God? That totality exists somewhere. There is a large reservoir in the City in which I am writing this. In my room there is a faucet. That faucet brings to me the water from the reservoir many miles away. Now that faucet is not the reservoir. But it does contain the water that is in the reservoir. And if the faucet were big enough, I could literally flood this room with water from the reservoir many miles distant.

So then, while we certainly do not have all of God living in us, we do have God living in us. And the little bit of the Spirit of God which does live in us, leads direct to the Source of all of the Power of God. And all of that Power is available to all men here and now, depending solely upon their desires to find and use that Power. This is the situation as it exists. The whole world is living with an abundance of Spiritual God-Power available, and yet seems to be in complete ignorance of that Power. Incidentally, it will be a smart thing to save every one of these quiet talks. They should be read and re-read. For if they contain the truths of God, those truths cannot help but manifest through what is in these little talks.

QUIET TALKS

WITH

GOD

BY DR. FRANK B. ROBINSON

Getting Acquainted with God

We have seen so far that the invincible, omnipotent, creative Power of the Creator of this universe, and you, lives in you. It is not far removed from you in some distant place, unknown to any but the angels and those who have passed on. The Power is here—in you. God is here—in you. And let me repeat it again, you have at your disposal, if you will take it, more than enough of the divine, creative, spiritual Power of God to make your life a life of invincible Power. There is nothing right you cannot do through the Power of the Spirit of God in you.

When enough people have grasped this staggering fact, and learned how to use the Power of God, a national movement will be started which will have as its sole object, the elimination of every wrong thing in the universe, by and through the Power of the Spirit of God, living in each one of us. Each reader of this column may do his or her part by calling the attention of others to this column. Not that the author is interested in publicity or money. He is not. But that the liberating truths of God may be known throughout the land, and may free us from the curse of wars, social disturbances, illnesses, and every other thing which is contrary to the Life that is God.

Our first duty then will be to get acquainted with the Spirit of Almighty God in us. I may have ten thousand dollars in the bank, but I may not know it. Someone else may have placed that amount to my credit. But I may not have been notified that this large sum is there. That is exactly the way it is with most people so far as God is concerned. God exists, in all the matchless Power and majesty that is God, but we do not know that yet. No one has notified us that such a Supreme Power is at our disposal. We have never known that we all can enjoy the fullness of the Power of God while we live. So our first duty is to not only be notified of the

staggering Power at our disposal, but to learn how to use that Power. We must learn how to spend the money in the bank. For money in the bank does not buy anything. Neither does the Power of God in us, not used, bring us any good thing. It is something like the power in a storage battery—it is in a static condition. To be of use to us, the Power of God must be made dynamic.

This may be done, and the doing of it is not anywhere near as hard as we may assume. If God, with all the Power God possesses, lives in us, that Power is there for a purpose. It certainly is not there to lie in a static, useless condition. Yet the Power of God will do just that if we do not use it. Almighty God cannot, and will not, force anything upon us. The Power of God is here, in us. It is almighty. It is instantly available. **BUT WE ARE THE ONES WHO MUST DISCOVER AND USE THAT POWER.** We can either use it or pass it by. If we are fortunate enough to use the Power of God, we become human dynamos for God. And when America becomes a dynamo for God, earth will become a paradise.

But how may you and I actually come into personal contact with the Great Spirit—God? That is the all-important question. Let me tell you how I actually and literally discovered the Power of God in me. Without going into details which have appeared elsewhere, let me tell you that the Power of God was first made real and vital to me because I wanted it to be. I was hungry for God. I would have died in an attempt to find God. So hungry was I that one day I shouted out loud: **"I BELIEVE IN THE POWER OF THE LIVING GOD."** That statement took hold. I repeated and repeated it. Day in and day out. And the first thing I knew, God was becoming a Living Reality to me. Suppose you try it. Let's do that and see what happens.

Copyright 1942, Frank B. Robinson
