Idaho Boy Enlists In Naval Reserve

MOSCOW, Idaho, April 20 (Special)—Alfred Bruce Robinson, 19, of Moscow, has enlisted as a flying cadet in United States naval reserve, according to the word received here Monday from district naval headquarters in Seattle.

Immediately after the Japanese attack on Pearl Harbor, Cadet Robinson gave up his pipe organ studies at the Oberlin Conservatory of Music, Oberlin, O., and returned home to prepare for enlistment. Meanwhile, he had enrolled at the University of Idaho here.

Cadet Robinson's father, Dr. Frank B. Robinson, is the founder of the philosophic religion, Psychiana.

PREDICTION

Editor, Sydney Post-Record, Sir:—Dr. Frank Robinson, of Moscow, Idaho, is considered by many to be the most advanced Religious Teacher of the present time. About twelve years ago he made the following prediction, which may be of interest to your readers.

I will thank you to publish it in your "People's Forum".

"We are living in the very last days of the present dispensation—a dispensation which has never known God. Inside of the next ten or twelve years the whole world will be engaged in the bloodiest struggle in the annals of the human race. Germany will make an unholy alliance with Italy and with Russia. Japan will join in and the democracies will face a life and death struggle against totalitarian powers. Russia will break away from the unholy combine and as a result of the activities of the Russian bear the forces of horror and hate which will manifest on the earth will be crushed. The world-war which will follow will not be ended by the success of either side. It will be ended because some man or woman will bring to the earth, at long last, the actual and literal truth of the existence and power of Almighty God. I suggest that the United States prepare a standing army of ten million men. I suggest it build at once ten thousand submarines and one hundred thou-

sand long-range bombers. For the whole world will be bathed in human blood before the power of the spirit of God is finally brought to the human race."
