LESSON NO. 6.

BY

DR. FRANK B. ROBINSON

Fellow American Society Psychical Research, Author "AMERICA AWAKENING"--"THE GOD NOBODY KNOWS"--"CRUCIFIED GODS GALORE." Editor "PSYCHIANA" Quarterly, founder "PSYCHIANA" Brotherhood, and author and founder of "PSYCHIANA."

Dear friend and fellow-student:

It was the commonly accepted fact amongst the ancient thinkers and philosophers, that everything in existence had been developed from a beginning which was quite primitive. Through all their writings we find this thought prominent. St. Augustine, one of the greatest of all the "church fathers," held this same view. And, as a matter of fact, this view is now known to be scientifically correct. There is no question about it at all now.

But, sad to relate, this old world went through a period of night--the blackest kind of night. It was black spiritually. It was black mentally. It was black intellectually. For religious superstition reigned supreme, and whenever and wherever religious superstition reigns supreme, then you may depend upon it, is a period of black night. In such periods--and there have not been many of them, thank heaven--reason and science are completely buried. Nothing matters except the black pall of religious superstition covering that period.

This was what we call the "Dark Ages." And truly dark they were. In the name of God, those under the spell of religious superstition cruelly tore the limb from the body--they applied the torch to the fagot--they gouged eyes out--they slit tongues--they used the thumbscrew--they threw little babies up into the air and caught them coming down on the cruel prongs of a pitchfork. Nothing mattered to those who cherished their insane belief in a superstitious "god" and these same religionists, throughout the dark ages, stopped at nothing in an attempt to foist their ungodly superstition on others.

In such times, the earth was flat. It had four corners. There was water in the "heavens" and when it rained, "god" was opening the windows of these "heavens" to let a little moisture down to the earth. The stars were lights suspended in the firmament, and the sun was the "big light" while the moon was the "little light," and both were suspended in the sky, hung there by "god" to give light to the earth. And for one thousand ghastly years, this condition existed right here on this old globe as we know it. It hasn't all gone yet by any means--but it's going--and going fast too. But it cannot go too fast no matter how fast it disappears. But as I say, a "remnant remains," and it is part of my other work outside of this course, to hasten the last remnant of such pagan superstition on its way to its inevitable doom. And I am happy in that work, of course.

The thousand years came to a close however, and with the passing of this Dark-age nightmare, men of reason began to appear on the horizon again. Many of them were brutally murdered by these religious superstitionists, but the fires of reason, kindled by these men, were fanned into one great flame of reason and intelligence, which has never been put out and which never will be put out. Came first the Brunos. They were burnt alive at the stake. Then came the Keplers and the Galileos, and the Copernicuses, and many others.

Sweeping the sky with his little telescope, Galileo and Copernicus both had moral courage enough to state that the sky was not flat. They said that the stars were not suspended in the sky at all, but were other suns, probably giving light to other worlds. You know what they suffered for making such statements. Regardless of whether their theories were true or not, they did not jibe with the teachings of those in power during this thousand years of religious blackness, and so the originators of these theories, (now proven facts) were either tortured or brutally murdered. However--one may bury truth to the earth--one may crush it--but sooner or later, grandly triumphant, it will rise from the earth and shine once more. It may be buried for such periods as this ghastly one thousand years but, sometime or other, IT WILL RISE AGAIN IN SPITE OF ALL THE RELIGIOUS SUPERSTITION IN THE WORLD.

And that is exactly what it did. It took over 1000 years to resurrect it and rescue it from the holy hands of the religious superstitionist, but it was rescued. It was resurrected. And to-day, it is here with us, glorious in itself. Religious superstition stands aghast at its revelations. Religious superstition wonders where the end will be, and it sees in this TRUTH which is sweeping the world, its own end. And it cannot come too soon for the welfare of every created thing. For, mark me well please, the day is here when people WILL NOT accept religious superstition, no matter what man or what organization gives it to them. They don't want it and they won't have it. And all over the civilized world today, even as I write this, almost every country that has been in the grip of religious superstition is throwing it away

That is significant--very significant. It has taken them a long time to wake up--but they are awake for sure, and for good. This means much to the intellectual, mental, and spiritual future of such nations, for the moment the black and terrible pall of religious superstition is ended, then can these same nations see the marvelous stunning facts behind this mighty scheme of life. And truly mar-

velous facts they are. Far too marvelous to be buried under the shroud of any system of religious superstition, where they have been buried for so long now. What a joy comes to me when I think of my part in the disseminating of these new and mighty truths of God. What a happiness fills my soul. What an intense love for all is manifested, and how very careful I am in my efforts to tell you of the existence of this mighty dynamic GOD-LAW, hitherto unknown and unsuspected by the differing religious organizations in existence today.

And you should be happy, also, my friend that you are, for the first time, being given the truths of the mighty Creative GOD-LAW as they exist. For the one who uses this mighty LAW, knows, and he knows full well that a proper application of this spiritual GOD-LAW to his own conditions and circumstances, will very effectively make such circumstances what he or she desires. So get ready my friend--don't think for one moment that I am fooling you. I have neither the time nor the inclination to do that. The very vastness and greatness of the GOD-LAW, though makes me overly enthusiastic to tell you about it, so that you may begin to put it into operation in your own life, and by so doing, obtain the things from God that you need so badly, some of you.

I wish it were possible to unfold these mighty truths all at once. But that is not possible. I don't care what your mentality is, nor do I care what your education along spiritual lines has been; the truths I shall give you are so revolutionary that you absolutely cannot grasp them in one reading. Nor could you grasp them all at once. I have tried it and I know, and in the case in which I have tried it, the truth I have been trying to teach has been invariably missed.

So step by step along the way let me lead you. Let me take your hand and walk slowly into this great God-realm, for to make haste might be perilous to your future. You might miss the goal. You might not find the GOD-LAW. I know better than you do what is the best way to make known this startling revelation of GOD, I think, so all I shall ask you to do is to play the game--fair and square--do as I ask you to do, and follow me very closely. For remember, we are dealing with spiritual things. We are dealing with spiritual LAW, and spiritual things are ALWAYS UNSEEN THINGS. Remember that.

Now to get back again to where I left off. Out of the black night of the dark ages came the torch-bearers of truth. They did not believe in the religious superstition vaunting itself on the earth those days, and masquerading as an agent of God. They saw further than that. They saw beyond the black night. They saw beyond the superstition. They suspected that God did not lie in the teachings of these religious superstitionists who were holding the world in mental and intellectual and spiritual blackness and night. They suspected that God was far removed from such teachings. They saw the cruel flames sear and destroy the bodies of those who would not believe the stories told by these superstitionists, and they used their reason --they wondered what sort of a God it could be who produced such a murdering mob of followers.

They wanted nothing to do with such a "god" and they frankly said so. Lamarck came to France, and Kant to Germany, Spinoza appeared in Holland and Locke in England. They disputed. They thought. And they sowed the seed and made the first

move in the removing of the terrible black robe of religious superstition which had so effectively buried the truth for over a thousand years. Then came Darwin who gave to the world his "ORIGIN of SPECIES, and on this work was founded evolution, which to-day, is being taught in almost every university in christendom. The religious superstitionists fought this teaching as bitterly as they knew how to fight it. But to no avail. TRUTH TRIUMPHED. IT RAISED ITS HEAD AGAIN. And to-day the fact of evolution is as firmly established as is the fact of gravitation.

Only the "remnant" which remains of the "religious superstitionists" do not believe it. It is universally accepted by the intellectual class the wide world over. It was accepted as truth when it was first given to the world, and in 73 years it is known to be the truth. But hundreds of thousands perished during the "thousand years of the dark ages" because they would not accept the teachings of religious superstition. But those teachings were all wrong as is now well known.

The superstitionist told us very solemnly and very fearfully that their "god" created the whole universe at once, and in six days. They told us the stories I have once referred to in this Lesson about the "lights" being suspended in the sky by "god" --their god that is. They told us of the creation of man. They said that this "god" of theirs, after making the entire creation in six literal days, spit in the ground, made a man, caused a deep sleep to come on the man, opened up his side and took a rib out, and made a woman--the first woman from this rib. This is what those who were in authority during the "dark ages" and before, told us.

They knew nothing of natural law. They knew nothing of science. They knew nothing of evolution. For the religious superstitionists were in full control. They killed at once, and very brutally too, every soul who would dare doubt their teachings. The Auto-da-fe was in vogue in that day and age, and the only way they were able to get "converts" to their superstition, was to threaten them with either death or torture. They knew nothing whatsoever of geology, and they knew nothing of the other sciences which have opened this whole subject up like a rose, and have subjected it to the sunlight of reason and intelligence. And the dirty little bugs of religious superstition have vanished as they always do, when the sunshine of men's God-given reason shines on them.

All those superstionists knew in that day was "gods." It was an age of "gods." They knew every "god" but the real one. For as long as the ghastly pall of religious superstition overhung the world, by no possible means could it know anything about GOD as this Spirit actually exists HERE and NOW. If a storm raged, destroying villages and homes and human lives--"god" did it. If a fire was quite naturally kindled in a huge forest, destroying more lives and lots of trees, then "god" did it. No matter what it might be. IF THESE RELIGIOUS SUPERSTITIONISTS DID NOT UNDERSTAND IT, THEY BLAME IT ALL ON "GOD." And never forget here, my friend, that the present systems of religion we have with us to-day, ALL OF THEM, WITHOUT EXCEPTION, WERE BORN INTO EXISTENCE IN THIS DARK AGE REASONING.

The "remnant" remaining to-day, is truly JUST AS SUPERSTITIOUS IN ITS ORIGIN AS WAS THE ORIGINAL THING IN THE DARK AGES. It cannot be otherwise for it is part and parcel of that unholy thing, and as such, it is inherently the same. True--reason and intelligence is demanding and has demanded that they throw away a lot

of their "dark-age" teachings, but this does NOT change the fact that the whole thing originated in, and is a direct result of, DARK AGE RELIGIOUS SUPERSTITIOUS TEACHINGS. Don't forget that.

SIX DAYS---"GOD" MADE THE WORLD IN SIX DAYS. He made it in stages of twenty-four hours each. Think of it. And just because the Bible said so, we have been asked to believe it. That is the Bible story. That is the story of the religious superstitionist. But thank heaven that story is passed now, and taking its place, we find science occupying the field. We find reality taking the place of religious superstition. We find FACTS taking the place of religious superstition. And a great change is coming over the world as this happens.

It is a universally admitted fact that this "dark-age" story of the creation of the universe is not true. And in a former Lesson I showed you the fact that GOD, being Spirit--or INVISIBLE LIFE--could never adopt such methods of making anything. I showed you that the first creation was an invisible creation. And at this point I shall show you how this invisible creation is absolutely in accord with the very latest scientific findings. And let me add here that there is no religious superstition higher than science. Nor is there any religion of any sort higher than science. For science means TRUTH. And TRUTH is higher than any religious superstition certainly. A scientific fact is a fact that is KNOWN to be true. WE KNOW IT IS TRUE. And up against one known scientific fact, you may pile all the religious theories you care to, and they will all be false if they are against that one known PROVEN scientific FACT.

So let us get along here, and see, if we can, just what is the fact of creation scientifically, and then when we see this, we shall see how marvelously it is in accord with what I told you of the creation in a previous Lesson. In that Lesson I tackled the problem from the religious angle. Here I am tackling it from the scientific angle. And we shall soon see that there is no clash at all. One TRUTH can never clash with another TRUTH. And we shall perhaps find here in this teaching, before we finish, the startling fact that ONLY TRUTH MATTERS, AND THAT ALL IS TRUTH IN THE FINAL ANALYSIS. Perhaps I should not have said that here at this initial stage of our journey together, but I will let it stand as it is, and if some of my students do not understand it, then pass over it for the time being. I know that I have many students who will understand it.

I should like to be fair at this point with the religious superstitionists of the "dark ages," however, to the extent of admitting that they had no way of finding out the truth of creation and its Creator. Whatever theory they evolved must have been sheer guess work. True, they had a book called the bible, but had they known as much of the origin of that book as we know to-day, they would have known just exactly what the book was and what it was not. And certainly they would never have accepted it as being even in the slightest degree divine, for we who have taken the time to investigate, know that it is no such a thing. It was on the teachings of this superstitious book, however, that these old dark-age religionists depended for their teachings and their inspiration, and, considering that fact, I am not so sure that they are too much to blame for their actions.

But their theory of god was, I repeat, entirely guess work. There were many

gods in existence far older than theirs, and the same story they held to and told had been told by other supernatural religious superstitionists, thousands of years before they had ever lived. I think it in order to state here that every supernaturally revealed system of religion the world has seen to date, and there have been many of them, have all had the same story to tell, in a more or less changed or modified manner. In essence it is the same thing. I shall not go into detail here though, as it is aside from the purpose of these Lessons, but I mention it in passing to show that even this ghastly "dark-age" religious superstition was only a copy of a far older system, and was founded in its entirety on similar stories held many thousands of years before by other "supernaturally-revealed" systems of religion. So once and for all we can very profitably discard any story and any religion that informs us that its "god" made the world in six days and by the "spit and earth" method. That is pure guess work and surmise. And the chances are many to one it is very untrue. At least we do not believe it do-day, for the simple reason that the facts as we do know them, very effectively give the lie to the other story. And it is in the realm of FACT where we shall find GOD--and nowhere else. He will never be found in any individual system of religion at all. Nor will he ever be found in any realm of superstition at all. He will be found, and he has been found in the realm of FACT and TRUTH.

As these thinkers came into existence, fossil remains were studied. Astronomy was studied, and scientists gradually came to accept the theory that the creation had occupied many billions of years of time. (Personally I question the existence of time as we understand it). As their great telescopes swept the heavens, they disclosed unmistakable evidence of other planets than ours, sweeping their way with unerring precision and remarkable accuracy through the heavens. They saw these things, and, shorn of the old superstition that some supreme being had made all this in a moment of time, they began to look for the scientific explanation of it all. Religion did not, and does not answer the question. So they looked to science. It has not all happened in a day, or a year, or anything like that, but it is a well accepted fact that this world has progressed farther, both mentally intellectually, and spiritually in the past one hundred years than it has ever progressed before.

More of the truths of God have been learned during the past twenty-five years than were ever learned throughout the entire thousand years of "bacchanalian darkness" during which period the superstitious religionists were at the height of their temporal power. (And moral degradation incidentally). Professor Millikan, that giant of the scientific realm, and a man to whom I shall again refer in a future Lesson said:

> "DO YOU REALIZE THAT WITHIN THE LIFE-TIME OF MEN NOW LIVING WITHIN ONE HUNDRED YEARS, OR ONE HUNDRED AND THIRTY YEARS AT THE MOST, ALL THE MATERIAL CONDITIONS UNDER WHICH MAN LIVES HIS LIFE ON THIS EARTH HAVE BEEN MORE COMPLETELY REVOLUTIONIZED THAN DURING ALL THE AGES OF RECORDED HISTORY WHICH PRECEDED.
>
> "MY GREAT GRAND-FATHER LIVED ESSENTIALLY THE SAME SORT OF LIFE, SO FAR AS EXTERNAL CONITIONS WERE CONCERNED, AS DID HIS ASSYRIAN PROTOTYPE 6000 YEARS AGO."

And Dr. Millikan is quite correct. And at this point may I remind my students that the end is not yet even in sight. There are fearless men, men of brilliant intellect, who are tackling this great unseen realm and this equally great seen realm, and we have only just begun to find out something of the magnitude of the mighty LAWS in existence. Practically every scientific mind to-day admits that the answer to the problem of the universe and its Creator, lies in the unseen or spiritual realm. They are recognizing the stupendous fact that UNSEEN FORCES are responsible for material things. It has taken a long time to arrive at this conclusion, but now that it has been reached, watch the progress from now on. I do not want the religious superstitionists to take any heart from this statement, for I assure them that in the last analysis, and when spiritual truth is known as it really exists, there will be mighty little ground for the superstitious of any field of endeavor to take refuge on. None at all. For all spiritual and all natural law, is part of the GOD-LAW. And no sort of superstition, not even religious, can ever enter that sacred portal of the GOD-REALM. Remember that.

Away out yonder in space, millions and billions of miles away, are to be seen great nebulae. These nebulae are vast and immense bodies of cloud-like material, and all of them are quite irregular in form. I have seen many of them through the great telescope on Mt. Wilson and again in Tucson, Arizona, through the glass of the University of Arizona. Chief among these vast bodies, if we can rightly call them bodies, is the great Spiral Nebula and the Nebula of Orion. I question very much whether or not the human mind can grasp the enormous distances these cloudy-like bodies are from this earth. The planets are far enough away, and they are of much greater density than are these fleecy looking nebulae.

One evening I stood at the objective of the great scope on Mt. Wilson, looking at the planet Uranus. This structure is only about seventeen hundred million miles away, and yet there I stood looking at it through this wonderful glass, the world's largest. It is accepted that these nebulae consist of the substance from which our suns and planets are made, and there are about 250,000 of them which may be seen through the Mt. Wilson telescope. These bodies are of immense size, and a nebula only as large as our solar system, could not be seen even through the most powerful of all telescopes. Those we do know of, are probably thousands of times as large as our entire solar system.

The most beautiful of all these known nebulae is the one in Orion, and it is perhaps the most beautiful object ever revealed by the telescope. It is more than ONE MILLION TIMES LARGER THAN OUR ENTIRE SOLAR SYSTEM. The Great Spiral Nebula, we are told, represents a mighty sun and a series or system of planets in the process of formation. In passing may I mention the fact that our Moon is but a dead star. It has no light nor heat on it. Nor is there atmosphere either.

It is universally admitted among scientists, that these nebulae are the primary cause of planets such as the one we live on. Just how this happens is more or less obscure, but it is an accepted fact that it has happened, and is still happening every day. Some nebulae are more dense than others. Some are in the nebulous state, whilst others shine as suns. It would take far too much time to explain to you the theories given and as far as these theories go while it is a universally accepted fact that planets are throw-off's from some sun or other and while it is a further

fact that a sun is a "completed" nebula we may not at this time give the exact method by which this remarkable transformation takes place. It is not necessary either that we do so. If the fact is accepted that these nebulae are the cause of suns and other planets then that is quite sufficient for our purpose here and now. For further study along this line I recommend a book written by Mr. Marshal Gauvin entitled "THE ILLUSTRATED STORY OF EVOLUTION." The book is published and copyrighted by the Peter Eckle Publishing Company of New York City and is one of the best of the condensed works dealing with evolution I have ever read. Mr. Gauvin has one little paragraph in that book dealing with this subject of nebulae which I should like to have you read so I reproduce it here and suggest that you obtain this book at your earliest convenience. Says Mr. Gauvin:

> "HOW IS THE NEBULA FORMED? THE CLUSTER IN THE CONSTELLAION HERCULES, IF IT IS NOT IN FACT A COLLOSAL NEBULA, SHOWS THAT SOME OF THE STARS ARE VERY CLOSE TOGETHER. NOW, THESE IMMENSE OBJECTS, THAT IN BLIND FURY DASH THROUGH SPACE, MAY COME INO COLLISIONN WITH EACH OTHER AND EXPLODE IN A NEBULOUS CLOUD; OR THEY MAY PLOUGH THROUGH DENSE SWARMS OF METEORITES, WITH A RESULANT EXPLOSION ON A SMALLER SCALE; OR, TORN BY INTERNAL CONVULSIONS, THEY MAY BURST INTO FRAGMENTS AND SCATTER THEIR DEAD DUST OVER THE ABYSS OF SPACE. IN ONE OR ALL OF THESE WAYS THE NEBULA IS BORN, TO BEGIN AGAIN THE RECURRING CYCLE OF NATURE'S LIFE."

This I think is about the most accepted scientific finding I have run across to date. It explains very simply the process by which these nebulae are existent. This is not the important thing however, but it IS the exact findings of science along this particular line. You may be sure of one thing, and that is that this old globe upon which you and I are living to-day, at some time or other must have been part of a nebulous substance floating somewhere in the ether. Its formation probably took millions if not billions of years. It was NOT created in six days, nor was it created at once, and by an act of a PERSONALITY called God. Such is NOT the case. For the thing called god by the superstitious, does not exist. And what they would like to term "god" DOES EXIST BUT only exists as a GOD-LAW. And a LAW has no personality of any sort--it cannot have. Neither has it any "mind" of any sort--it cannot have.

This GOD-LAW is infinite. It is omnipotent. It is omniscient. It is all creative It is impartial. It is NOT a personality--it IS A LAW. It is more than that. It is THE LAW if you please. Now mark me carefully here, IT IS THE ONLY LAW THERE IS IN THE UNIVERSE. Try and think that out and grasp it well. Perhaps you won't understand that statement to the full now, but you will later on in your studies. Remember here though, that there is only ONE LAW in the universe, and that is the GOD-LAW. It is NOT a personality. IT CAN ACCOMPLISH ANYTHING AND EVERYTHING. It is responsible for every created thing, and there can be no creation of any sort or kind without the operation of this mighty LAW. It operates in the flight of the nebula, and it operates in and through me as I write this to you, and it operates through you as you read it. It is responsible for yon clusters of stars and it is responsible for the fish at the bottom of the sea. Had there been no such GOD-LAW there would never have been any created thing at all. And it is this same GOD-LAW operating in and through the intelligence of men, that has given to the world in the past hundred years, the remarkable discoveries that have been made. Now listen to me a moment please. If you ever obtain the things you need in life, THOSE THINGS WILL BE BROUGHT INTO BEING

THROUGH THE OPERATIONS OF THIS MIGHTY GOD-LAW. THIS LAW you are learning about now, will be the means of bringing to you, either health, wealth, happiness, peace or whatever it is you need, and THESE THINGS CAN COME NO OTHER WAY.

I have a very specific reason for desiring that you learn well the picture as this Lesson has given it to you. Forget about any PERSONALITY OF ANY SORT BEING RESPONSIBLE FOR THIS UNIVERSE AND FOR YOU. Realize here that a Great Creative GOD-LAW is alone responsible. Try and imagine the vastness of space, and try also to imagine that the creative processes which have brought man to his present state of development, have been going on for millions of years. Learn the fact of the great ethereal bodies called nebula floating around in the ether, for ether pervades all space. I shall have a very startling statement to make regarding this in the next Lesson. But realize that a mighty Creative GOD-LAW is the controlling factor and sole and supreme CREATIVE POWER.

I shall not take you any farther into the subject in this Lesson for I want you to grasp carefully every thing I say to you now. Remember that GOD is INVISIBLE LIFE. Remember too, that a thought is an INVISIBLE THING. Remember also, that YOUR THOUGHTS ARE PART OF THE GREAT INVISIBLE LIFE PRINCIPLE RESPONSIBLE FOR EVERYTHING---ESPECIALLY LIFE ITSELF. For where LIFE is, the other things can always be. But where LIFE is NOT, then nothing else can be. I want to get the thought home to you, that YOU are a LIVING VITAL MANIFESTATION OF THE MOST POWERFUL LAW IN THE WORLD. I want you to see that YOU ARE A VITAL PART AND A MANIFESTATION OF THE ONLY LAW THERE IS IN THE WORLD. I want you to grasp the fact that you, through the part of you called your "thoughts" are IN DIRECT CONTACT WITH THIS MIGHTY GOD-LAW WHICH CAN PRODUCE EVERYTHING, INCLUDING WHATSOEVER THINGS YOU NEED HERE AND NOW ON EARTH. If you do not receive these things, it is your fault. It is because you have not grasped the LAW or perhaps have not had it pointed out to you.

Away back yonder, back of the nebulae, back of all the planets, back of every created thing, you will remember that this mighty LIFE SPIRIT made an INVISIBLE CREATION. No other kind. I shall show you from now on, exactly how this mighty God-Spirit brought into physical manifestation, the Creation that HE HAD ALREADY MADE. Then I shall show you how YOU, by pursuing the same methods this GOD-LAW provides for, will bring into ACTUAL MANIFESTATION, the things YOU need. For certainly the LAW is here. Certainly it operates. If it could take a spiral nebula and from it make a marvellous creation such as we now enjoy, then do you not think it can create for you the few paltry things you need? Of course it can--for it is the GOD-LAW, the very same Principle that brought every manifested thing to earth. It is a LAW and don't you forget it.

You are doing the little exercises I have prescribed for you. I shall impress on you once more the absolute importance of setting before your "mind" as we say, the thing you want. I don't care what it is. The probability though is, that it is either business success, health, or happiness, and let me assure you that this Great GOD-LAW can bring them all to you when you learn how to comply with the conditions governing it in your own life. But make sure of what it is you want, and then let your every thought, when not otherwise occupied, be of that thing. If it is success then be instant in your little affirmation, and say:

"I AM MORE AND MORE SUCCESSFUL---I AM MORE AND MORE SUCCESSFUL."

Let this sentence eat into you. Let it become a very part of you. After while you will be doing it unconsciously, and when that time comes you will be well on the way to the actual manifestation of this very thing. Throughout the spinal column and brain, there runs a fluid called the "spinal fluid." This is composed of what are called neurons, and these neurons join hands with each other as it were. The end of one grasps the end of the other one. Every thought going through your cerebro-spinal system or the sympathetic nervous system, makes a definite movement among these neurons. It makes a path, which path however, closes up the minute the thought has passed. This is a physiological fact. NOW--you let the same thought be repeated over and over again, and THERE IS MADE A DEFINITE PATH OR CHANEL IN THESE NEURONS, which belongs peculiarly to that one thought. With repeated affirmations or repi-titions of that one thought or statement, they become automatic so to speak, and they become a very part of you.

I only mention this to show you that there is a scientific reason for every-thing I ask you to do, and greater than that, there stands behind it all--THE GOD-LAW. And certainly THAT cannot be held incompetent to produce whatever is needed. So let this statement of your success ever be uppermost in your mind. Remember, you REALLY WANT success to come to you. You are not indifferent at all, but you actually WANT it, and in order that it may come, you are willing to WORK a little bit, men-tally, for it. For this is what it amounts to. You do not know at this point the mighty GOD-LAW by which these needed things will come, but you are willing to work intelligently with me in order that the GOD-LAW, about which practically nothing is known, can manifest.

Perhaps your trouble is one of health. In this case you shall use the statement to the exclusion of all other statements and thoughts:

"THE LIVINNG GOD IS MAKING ME WHOLE"--"THE LIVING GOD IS MAKING ME WHOLE."

Do you not feel that there is anything even faintly connected with "superstitious religion" about this statement, for there is not. "PSYCHIANA" is a new PSYCHOLOGICAL religion, and therefore it is a SCIENTIFIC RELIGION---not a superstitious one. And the founder of this system, and your present teacher knows whereof he speaks. He KNOWS the GOD-LAW exists. No matter what the illness or the sickness may be, use that statement, and USE it. DRIVE IT INTO YOUR VERY BEING. You will be putting the GOD-LAW into play if you will.

If it is happiness you need, then say:- "I AM HAPPIER---HAPPIER---HAPPIER" and KEEP AT IT. At night, you are still relaxing. You are lying very still. You finally forget that you have a body, and you feel sleep slowly creeping on you. THEN--you focus your thought and your desire INTO YOUR VERY EGO, for that is what the "white spot" is a manifestation of, and--you are asleep. When you awake, the very first thing you do go into your statement, no matter which of the three it may be. And you mean it. It is becoming a very active part of you. And you MEAN BUSINESS. You want to actually find the great GOD as the mighty POWER exists--and you will, if you will follow me.

In the next Lesson I shall go into this same subject a little further, and will deal with the ACTUAL EXISTENCE OF THIS GOD-LAW THROUGHOUT ALL SPACE. I will show

you what it is, and then a little later, how it operates. Strange as it may seem, you and I live, and move, and have our being in the very midst of the most potent dynamic power we have ever seen or heard of, and yet we wander around looking for something or other to bring to us the good things of life. The next Lesson will show you the actual existence of the GOD-PRINCIPLE, and I do not think such a Lesson has ever been written before. I do not think any of the scientists have seen it. Perhaps they have, but if they have I have never heard of its being called to anyone's attention before.

Don't forget to write me if you experience any difficulty in grasping these Lessons, I want to help you find GOD--the REAL GOD--not a personality of any sort but the greatest Creating Power in existence.

POINTS TO REMEMBER IN LESSON SIX

1. What was accepted as the truth a few hundred years ago is not accepted as the truth today.

2. The immense truth of the unseen Spiritual Law, as you are learning it in these Lessons, has always existed but has not been recognized until quite recently.

3. The only limitations there need be on your life are the limitations you put there yourself, for truth is all powerful and when the truth of the Spiritual realm is applied in your life this truth will enable you to do almost anything you want to do.

4. The applications of the God-Law in your life will be followed by material manifestations also.

5. If you are not well physically repeat the affirmation given in this Lesson continually until it becomes a part of your very nature.

6. Grasp this Lesson fully before you receive the next one for in that Lesson you will be given another forward glance into the great Spiritual realm of truth. Be sure and write me if you do not understand anything in this Lesson and I will try to help you with it.

Sincerely your friend,

Frank B Robinson
