

THE LEAGUE OF ATERNAL LIFE

MOSCOW, IDAHO

LESSON NUMBER SEVEN

Whenever I write for the public, I make as sure as possible that what I have to say is the absolute truth, so far as I believe it. My work is very much too sacred to attempt to play with the feelings and emotions of anyone--especially their very deepest emotions. I should not be interested in doing that, even if it meant ten million dollars to me. My work is solely to reveal the Spirit of God, as I have had the Power of that Great Spirit revealed to me--to the rest of the world.

So when I say to you that I believe it to be entirely possible for us to live on earth forever, you may be very sure I have spiritual grounds, plus a spiritual revelation upon which to base my premise. It is true that what I am advocating absolutely upsets for ever the chosen theories of most major religions, all of whom have taught that God is separated from man, and will be all thru this life. Each advocates its own theory of how to find and know the actual Power of God, but all of them deny that we can live forever on the earth, without going thru this thing called "death" first.

Well I have many, many grounds for not believing that at all. First there is my own intuition which, incidentally is the manner in which reveals Himself to me. Then there is my past experience of over 19 years, during which period I have actually handled many millions of people who have written to me, asking for light and information about Almighty God. During those years I have seen over 500,000 letters from those who know. I have known cases by the thousands in which what has happened as been called "truly a miracle". But did it ever occur to you there cannot possibly be such a thing as a miracle? A miracle is usually referred to as something that violates natural law. But that is not possible? Natural law cannot be violated for the simple reason that the Power behind all natural law is God--is it not?

And how can God violate any Law made by God? True--there are, and have been many happenings which neither scientists nor physicians can explain, such as the many thousands of so-called "miraculous" healings The Psychiana Movement has witnessed. But that is only because these scientists and physicians do not understand the principle involved or the disease. An "incurable" disease is only one for which the remedy is not known to the medical fraternity. But to say that no remedy exists would be foolish. The remedy does exist--it has not yet been discovered by our scientists and physicians--that is all. If then, all natural law is God's law--and it must be--do you not then see that what we have referred to as "miraculous" must be only the little-understood Law of The Almighty in operation? And if cancer is a supposedly "incurable" disease, what happens when it is instantly healed? Not medicine certainly. Not scientific theories. BUT THE ACTUAL LAW WHICH IS GOD, THROWN INTO OPERATION BY SOME MAN WHO UNDERSTANDS SOMETHING ABOUT THAT LAW.

I write this on May the 29th. During the luncheon hour today, a long-distance call came in from a man in Pittsburg Pa. His little child

was supposedly dying. I told this man that if he had even the faintest real belief in The Almighty and His Power to heal, his child would recover. HE SAID HE HAD LOTS OF FAITH IN GOD. So I told him, with positive assurance that HIS BABY WOULD RECOVER. It will. Now why am I able to make such positive statements as that, with never a chance of their failing to produce the required healings? Well the answer is simple. I have got to the place in which I know, by actual experience and life, that the Power of The Spirit of God is the most dynamic Power on this earth, or in "heaven" or anywhere else. I have also discovered that whenever and wherever any man or woman has even the slightest grain of complete confidence in God, EXPECTING GOD TO DO ANY GIVEN GOOD THING, God can, and never will fail one. So where is the "miracle" there?

This God-Law as I like to call it, permeates all nature. It lives IN YOU. It gives you LIFE. Your life IS the very same Life as that which God gave it years ago. It must be. What else can it be? It came from no other place than God, so how can it be anything else than the life which is God? And if it be a fact that the very Life which is God is the motivating Power in your Life, what is there to prevent your living forever? Do you think God wants to commit suicide? Of course not. So let your increasing hopes, anchored firm on the Power of God, and experimented with in The Realm of The Spirit of God, hold top priority in your thinking. YOU MAY BE ABLE TO LIVE FOREVER.
