SPECIAL NOTE.

The above demonstrations have come to us in absolutely unsolicited letters from Students the wide world round. These are but a small percentage of the number we received during the preceding month. As men and women find and use the Power of the GOD-LAW, they are more than happy and they wish us to tell others so that their experience

Some time ago I sent a telegram at noon and received an answer about 4:00 P.M., and I want to thank you all for applying the great Living Power to my friend. She started getting better that very afternoon. She had had five blood transfusions and was getting the sixth that afternoon. I told her father to have faith that she would be better the next day, and she certainly was. She had a bursted appendix, but she is home now and on the road to recovery. I am very thankful for the great Living Power and for your aid.

I wrote you last year regarding the condition of a beloved sister who was very low from cancer. Doctors said there was no earthly hope. She is a trained nurse of 25 years' practice, so had no illusions regarding her condition. Early in December she started to improve, and to the wonder and amazement of doctors and friends, seems to be on the road to recovery - goes everywhere and leads a healthy, normal life. I wrote to you for help unknown to her because she will have nothing to do with my ideas of living and general philosophy of life. Was I wrong in asking help for her? At least I give you credit, and thanks, for her present good health and expectancy of life for some time to come. I just received a letter from her. She has just returned from a tour of over 1500 miles in less than two weeks.

I should have written sooner to let you know how I am progressing with my Lessons. I have benefited in health. I had gall stones so bad that my heart would stop beating from gas. Since the second Lesson I haven't had any pains, and my heart is normal. Will report more regularly.

I feel that I should write you and thank you for the blessings I have received through the Lessons I got from you. About one year ago I secured one of your used courses, and although I have not studied as I should, I feel that it has been a great help to me and my family. Two years ago, the twenty-third of March, I had a boy in Tracy, California, who was operated on for ruptured and ulcerated stomach. He didn't seem to get much better. After coming home and spending a few months he went back, and still he didn't seem to get better. Then I got your Lessons and

studied them. I also sent him the lectures and letters you sent me. He liked to read them, and the last time I heard from him he could eat most anything and was working. I am proud, for I feel it was the God-Law that did the work.

I also had a little nephew at Wilburton, Oklahoma, who was blind, and about whom I wrote to you. Well, thanks to your understanding he is able to see and attend school; and although his eyes are not strong, he can see.

Now, I have a very dear friend in the T. B. Sanitorium at Paris, Texas. The Doctors said she had only a short time to live. Her cousin and I gave her some of your letters and lectures to read. A short time ago she visited out in the country over the week, which was the first time she had been out of the hospital in over two years. The doctor said one lung was completely healed and the other twenty-five per cent better. Now, I just think it's wonderful to have such an assurance. I'm asking you to remember all that I've mentioned in your prayers, and may your success be one to bring the world to realize the God-Law

Mrs. J. G. Stephan, 703 N. Main St., Evansville, Indiana

P. S. Some months ago I told you about my little granddaughter who had St. Vitus Dance. She is up and around again, and will be able to go back to school this fall.

Mrs. C. E. Stout, 328 Rialto Bldg., Butte, Montana

Today I have much reason to rejoice. Since my last letters to you the Great Power of the Mighty God-Law has worked marvelous things. My good, kind, wonderful husband has become greatly interested in "PSYCHIANA" and has read the Lessons faithfully, earnestly, and interestedly - and through the faith he has fought, as no man ever fought before, and we have conquered - won - over his terrible affliction - drink. Our faith in God has been rewarded, and we have won a battle that no one but God could ever have won; and so as I read Lesson Twelve I can truthfully say, "I thank thee that thou hast heard us." And we are both truly thankful to God, for to him goes all the credit. Thank God for "PSYCHIANA" and its Teachings. May God bless you and your great work. May it spread rapidly over the world and help others as it has helped us. And may our faith become greater and greater as we study on.

Mrs. Helen Harclerach, 1708 N. Garfield Ave., Pasadena, Calif.

My husband was taken sick in 1928. It took just one year to break us. Two years I worked house cleaning. The last thirteen months I took care of my husband day and

night. At one time there were three months in which I never closed my eyes. In 1932 he passed. I weighed just 62 pounds - a complete wreck with snow white hair. Now in 1938 I weigh 102 pounds. It took six years to gain 40 pounds. I have never been able to go out much to pay monthly bills. If I did I returned home in a couple of hours a complete exhausted nervous wreck. Today, after the second Lesson in "PSYCHIANA," I can go down town in the afternoon and take in a meeting at night up until twelve o'clock.

I consider this demonstration of "PSYCHIANA" most wonderful. You speak of people half dead. I was one of those, but not now. I do not know what exhaustion is now. I continuously work and love it now, and "PSYCHIANA'S" teachings are the only cause of my returned endurance and vitality. Surely the God-Law works. I sincerely appreciate "PSYCHIANA," the Founder and Teachers of this wonderful God-Law that brings such loving blessings to all who seek.

Mrs. Margaret Eldred, 913 S. E. 15th St., Cedar Rapids, Iowa

My husband is studying with me. He has had a terrible bronchial cough for years. Last winter when he would go to bed he would dream of some very hard work and would be so tired. Sometimes he would get up at three or four in the morning and tell me about how tired he was, and refuse to go back to bed. After he had studied the third Lesson his cough is gone and he rests good at night. I didn't want to brag until I was sure, although I have told all the neighbors and they think it wonderful. Thanks ever so much for this course. God will surely bless you here and hereafter.

Mrs. Chas. Griffiths, 2321½ N Street, Sacramento, California

I want to sincerely thank you and our wonderful God-Law for all you have done for us in our hours of great grief and need of spiritual help. A telegram was sent to you a week ago asking you to help our 20-year-old daughter who was taken very ill and sent to the hospital. Her father and I were nearly crazy with grief, but you replied immediately that you were giving spiritual help, and right now things began to brighten up in so many different ways. It really was a miracle. We never will say we do not believe in the Power of the Living God-Law. It certainly was demonstrated and it all came so quickly and came from sources where we never expected help of any kind. Out of a clear sky - from a party we barely knew - was given us a check to pay the Special Nurses off. We can't thank God enough for the wonders he has done.
