

GOD—AS A LIVING SPIRIT—CAN BRING TO YOU PERFECT ABUNDANCE!

From time immemorial, God has been a living, invisible, vital Spirit of life and creation. No one ever killed God. No one ever tried to. Many old traditions would have us believe that God was killed once upon a time, but that is not true. For the invisible Spirit of the God-Law lives in you every moment of the day, and is ever waiting for you to recognize that invisible though powerful presence. Please follow me very closely in these studies, for they are pregnant with Spiritual Power. Our files are literally teeming with evidence of what the "God-Law" can do for all. If you have not yet come into the fullness of realization, you should have come into it. Sooner or later, you will. Just remember one thing—you live and move and have your being in the great Realm of the invisible Spirit of God. So then, "the world may be yours, and everything that's in it."
