

From the Private Study of
DR. FRANK B. ROBINSON
Moscow, Idaho

A FEW PERSONAL WORDS FROM FRANK B. ROBINSON

There will come to you, as you study with me, a feeling of infinite peace. It will steal into your soul somewhere along the path of your travels with me. It may come to you in your first Lesson--it may not come to you until your studies are finished. But whenever you feel this quiet indescribable peace stealing over you--welcome it--woo it. For it is not by might that great things are accomplished by God in human lives--it is not by power that these things are done--but it IS by the Spirit of the Living God.

Foolish would be that man who tried to understand the workings of His great plan. Some day perhaps--but not now. For the Realm of the Spirit of the Eternal God is far above our human understanding. Not above our spiritual understanding though. The Spirit of the Infinite has not yet failed to make its Presence known to the honest seeker. None however may dictate the manner in which the Great Spirit speaks. I think none would dare try to do that.

So--as you study with me--rest calmly in the absolute assurance that there WILL come to you, an indescribable "something" which, when it comes, you will recognize as being from the Spirit-Realm of God. I say--"woo it." Above all, keep still, quiet. It is in the "stillness" that the voice of the Spirit of God is recognized. I cannot explain to you why God speaks through these simple writings. It may be because they are written so earnestly and it may be that God, in His infinite wisdom sees fit to carry His Spirit to men and women through this strange medium.

Forget the medium though--forget me entirely. I don't matter. What matters is that the Infinite Spirit of God with its power be recognized by you, and be allowed to show the world through you, what It can do for humanity, when given an opportunity.

Yours for the Kingdom of God,

Frank B. Robinson
