It is hard to conceive of the change in circumstances which might occur in YOUR home if the dynamic Power of the God-Law is allowed to work.

Portland, Oregon,  
February 25, 1935.

Dear Dr. Robinson:

My son said, "Mother, write to Dr. Robinson and tell him the truth about me. If anyone had told me a month ago that I could have done the amount of spading in two days that I did yesterday and the day before, and would not have been so stiff and lame I could hardly get out of bed, I would have told him he was crazy. I am not the least bit sore, and I have full control of myself again, and I know he will be glad to know."

My son had been gradually losing control of himself for several years. It was so gradual that it is impossible to say when it began. A year ago last August, he went to a dentist to have two teeth pulled. The second ones that had ever ached. He had had very little dental work done on his teeth, as they seemed perfect. When they were X-rayed, every one of them was ulcerated at the root, even the bone had to be cut away on one side. At this time he stumbled as he walked. He had twenty-eight teeth pulled in one day. This can be verified at Dr. — in Portland.

Then came the long pull to try to get back to normal. He had practically given up hope that he ever would be normal again. His domestic life had gone on the rocks several

years before. He has four children, and few fathers love their children more than he. To be separated from them was heart-breaking.

Then I saw your advertisement in a little paper. It was the fact that you were in Moscow that really attracted my attention to it. We lived on the School section east of Moscow for fourteen years, leaving there in 1904. When I read the advertisement, there was not so much as \$1.00 in the house. We were on relief. About a month ago, another of your advertisements came. I read it and he looked up and said, "Mother, send for that." I did. The first Lesson came on January 24. I sat down and read it aloud that evening, making no comment. The next evening we read it again. He looked up and said, "He is right. It can be done."

John had been doing more or less work all the time, to split a little wood made him sweat. He spaded our own garden last spring, a little at a time, and every time after a few minutes work, his clothing would be soaking wet with perspiration. The two days he referred to at the beginning of this letter were done for a friend and she called my daughter and said, "Well, John sure earned his money. I never saw so much spading done in two days in my life, and he shook the grass out, too."

He just now said, "Mother, I am not the same person I was a week ago. Everything about me is changed. No one can hurt me but myself. I can't explain it—I feel like it has been here all the time and I'm the last one to find it out. It can't be told, you just feel it and know. I'm different in every way."

Needless to say what this means to me. This one Lesson has done so much to me, too. But as you said, to those who need it most, it comes with greatest force. What a world of difference it would have made all along the way if we could have had "Psychiana." However, that is in the past and we go on from here.

Yours for "Psychiana,"  
(Signed) A. M. S.

P. S. We are off the relief now.
