"PSYCHIANA"

The New Scientific Religion

Dr. Frank B. Robinson, Founder

Moscow, Idaho

My dear Enquirer:

Enclosed is a letter from a wealthy gentleman in Egypt. It came to me the first year I launched "PSYCHIANA." This gentleman was one of my first students. His life was absolutely revolutionized through this Teaching. He says himself, "No words of mine can adequately express the glorious thrill Lesson 4 gave me."

The human race is emerging slowly but surely from the tradition, dogma, and superstition which has enshrouded it from the very start. An age-old search for Truth has brought to light a new and appealing philosophy of God. Men and women the wide world over are proving to their absolute satisfaction that God is the most dynamic Power the world has ever seen. Men and women the wide world over are proving and demonstrating the fact that all the Power of the Infinite Spirit of God is at their disposal here and now.

What matchless thought. What a staggering Truth. No one has ever been able to secure any spiritual or material satisfaction from any theory that God lives up in the sky, unknowable to us until we die. That is not the Truth. My files teem with letters telling in no uncertain terms what this Living Power can do for all. This is a revolutionary Teaching, and it is perhaps the most powerful religious teaching this world has ever known. But the world is ripe for it. Are you? If there is that in your manhood or womanhood which cries out for the better things of life, which cries out to know the actual Power of the existing Spirit of God, then I urge you with all the earnestness at my command to come with me and study for awhile. I don't think you will be disappointed. Your own common sense tells you that there must exist a spiritual Power which can make you an overwhelming victor, both materially and spiritually, here and now.

So read carefully Mr. Birley's letter. Then fill out the enclosed application blank and mail it to me in Moscow, Idaho.

May the Spirit of Eternal Peace abide with you forever.

Sincerely Yours,

Frank B. Robinson

Dear Dr. Robinson;

I received Lesson 4 yesterday & stayed up till one o'clock this morning reading it through.

No words of mine can adequately express the glorious thrill it gave me. The story of the creation & fall of man, as unfolded by you, is one of the most marvellous revelations I shall ever experience. To think that this earthly life is "death" makes you long to discover something definite about our future existence. Will your later lessons give any enlightenment on this important phase of existence?

The thought of being able to actually speak to the Living God, the Mighty Life Spirit, fairly took my breath away, as you said it would do. I was keyed up to a high pitch, 100% wide-awake & expectant, when I came to that passage.

It's impossible in a letter to show you my true appreciation of your wonderful work as I cannot possibly thank you sufficiently.

Very sincerely yours,

Geoffrey Birley.
