

# "PSYCHIANA"

The Religion of Power

March  
5th July  
Began Mar. 12  
MOSCOW, IDAHO

To those who have enquired about this Teaching:

I wonder if you are one of those who claims to be more interested in your "soul" than you are interested in material things here and now. Frankly, I am not concerned any more about my "soul" or with what will happen to me "in the future." It will have to take care of itself and work out its own salvation in whatever environment it finds itself, just as you and I have to do here.

I am not interested in any "mansions in heaven." I am interested in the comfortable home for myself and family and the millions of other families on this earth here and now. I am not interested in "flying to the breast of Jesus," and I have no desire to be "washed in the blood of any lamb." Nor am I concerned with any other sacred "doctrines" just because they are incorporated in a book which we are told is "divinely inspired."

My intelligence cannot accept such a philosophy when it not only is NOT saving mankind, but is detrimental to the welfare and well-being of mankind. And book, be it bible or otherwise, which is used as the ultimate authority for a philosophy that throws mankind into such a form of mental slavery should not be allowed to exist.

ONE OF AMERICA'S GREATEST SCIENTISTS AND PHILOSOPHERS SAYS:- "Who is this god of Isaac we are asked to worship, who so bungled creation that he had to employ a fig-leaf and a snake to find an excuse for a flood, and then had to send his son to redeem mankind?"

I think we can very safely discard all such tommy-rot as that, for believe me there exists a far larger, a far brighter picture than that. The God-Law, CAN, and WILL, and DOES bring to all of those who comply with the conditions, a fullness of material supply, health, happiness, and peace HERE AND NOW. If it cannot do that we might just as well forget all about the God proposition, for there isn't any, if he cannot do these things.

But you and I instinctively seem to KNOW that such a power exists-- don't we? If it be that I am the one to lead you into this God-Realm, I am happy. At least you will give me the chance to, won't you? If you do not agree with this Teaching, your money comes back to you in full. (See the money-back guarantee.)

I suggest once more that you send your application for enrollment to me today.

Sincerely,

*Frank B. Robinson*

# RELIGIOUS IDEAS ARE CHANGING

In fact, man's whole philosophy of life is changing. His whole outlook on the world's institutions, secular and religious, is changing. He is no longer content to accept as sacred or as the final and ultimate truth, whatever doctrine is handed down to him.

He has found that many of the things which he has been told in the past are not true. He has learned that many of the doctrines, be they social, economic, political, or religious, simply do not check with the facts of life as he sees them around him.

## WHY IS THIS? . . . WHAT IS WRONG?

We of "Psychiana" believe the trouble is with the so-called "sacred" or "ecclesiastical" system, with its multiplicity of "divinely inspired" creeds, dogmas, and doctrines. Thinking Americans have weighed these creeds and dogmas in the balance, and found them wanting. They refuse to recognize further, any church "divinity" or authority, and are turning away from it completely and finally. And the trouble lies with these religious systems themselves. We of "Psychiana" do not believe that their teachings are either original or true. We did, however, believe them for many years, but finally our eyes were opened to their falsity, and to the larger picture of God, which picture actually can do for men and women what they have expected the old "orthodox" teachings to do, but which they failed to do.

## MAKE NO MISTAKE ABOUT IT. "PSYCHIANA" IS A VERY REVOLUTIONARY RELIGIOUS TEACHING

If we are right, the rest of the religious organizations are wrong. Either that, or they are certainly misinterpreting and limiting the Power of the God-Realm. However—you have an opportunity now to find out whether or not we are teaching just another error, or the actual Truths of God as this Great Life Spirit exists. We will let you be the judge of that. Read our money-back guarantee, note its protection, then enroll. The charge is very moderate, we assure you. We are not interested in your money, but we are interested in seeing you find, to your eternal satisfaction, the Power of this great God-Realm as we believe it to exist, and as many thousands of students have found it to exist.

# LOOK AT ETHIOPIA

Ever since the dawn of time, man, afraid of the unknown and all the forces of nature he could not understand, has bowed down before, and prayed to some kind of a god to save him. All these gods have failed. Another one is produced. This time it is Jesus—the Son of God of the Christian religion. He came as a savior. He is the hope of the world. Only through Jesus can we be saved in every sense of the word. Now how well has he succeeded?

## LOOK AT THE RECORD

That little country of Ethiopia has boasted of having the oldest Christian church in the world. It has been working at Christianity longer than any other organized church in existence. Yet that country has never risen above the level of a poor, decrepit, ignorant, poverty-stricken, moth-eaten kind of a civilization.

## “PSYCHIANA”

believes that all stories of crucified gods are but old pagan myth and superstition. It believes they are all false. Furthermore, it believes and teaches that the true picture of God never has been given to the world by any church organization.

The picture of God as held and taught by “Psychiana” is that of a Supreme Law which can, and does produce whatever things are needed for man’s complete happiness and financial as well as spiritual success, here and now. Furthermore—our files are teeming with letters telling us of what this Great God-Law has accomplished in human lives, through this study.

## DON'T CLOSE YOUR EYES

to this Teaching. Don't procrastinate longer. We can not send our literature to you indefinitely. If you but knew just what things the Power of the True God is accomplishing in human lives, it wouldn't take you very long to enroll with us. Your money is refunded if you are not satisfied. It would be a pity, though, to have you refuse to heed this call. Sooner or later you probably will study with us, so why not now?
