## SUCCESS or Failure—Wealth or Poverty— Happiness or Despair—Which?

In presenting these dynamic Truths to you, may I ask you to be quiet and undisturbed while you read them? I would like you to imagine I am sitting opposite you in a chair talking to you, and I would like us both to be quiet. These great dynamic Truths which are revolutionizing religious thought, and the Law behind these Truths usually operates when we are quiet.

Before I discovered this dynamic Law I am going to tell you about, I searched everywhere for peace, happiness, and success, just as you probably have searched. Like you, I did not find it, until one day when there came to me a moment of supreme quietness, and in that moment these great dynamic Truths of the God-Realm were revealed to me. This is because the Realm of Spiritual Power I am going to take you into is a Realm of Law, and Law never makes any noise in its operation. I have no way, of course, of knowing who you are. Inquiries about this revolutionary Teaching pour in to me from all over the world, and these inquiries come from people in all walks of life. The business man, the housewife, the laborer, the "down-and-outer," the mailman, the preacher—I receive inquiries from them all, and the results which have been accomplished in human lives through the application of the Law I am going to tell you about are being discussed the entire world over.

Let it be understood that I am only a simple man. I try to be a very humble man, and although the publicity I have received and am still receiving all over the world naturally focuses attention on the little city of Moscow and myself, yet I want you to understand, whoever you may be, that I am just an ordinary, common human being just like you are. I have had just as many troubles as you have had, and I was as helpless to overcome these troubles as you are until I found the existence of the great God-Law. Naturally, since that day, my entire life has been devoted to passing these stupendous Truths on to others. I myself take no credit for their discovery. Every so often, whenever necessary, a man is raised up who brings to the world a new vision of Spiritual Truth. This new vision I am giving to the world now has been called and probably is the most revolutionary advance since the Reformation. There will come to you before you have read much farther an indefinable something from within you. This something will convince you of the power of these writings of mine, and if you will allow it to, it will lead you into the great Source of all power, which, of course, is the Source I discovered and gave to the world some ten years ago. Like the law governing electricity and the radio and gravitation, the Law of the invisible Realm of Power always existed. It has existed for millions of years, only man did not know of this invisible Law just as he did not know of the existence of the law governing radio or electricity. There is this difference, however, that the Law of the God-Realm is a far more amazing, invulnerable, and indomitable Law than any law we have discovered to date. Were it not for this God-Law, there could be no other laws of any sort.

To think that there exists an invisible Spiritual Power which man can use to bring himself whatever material things are necessary is certainly new and revolutionary. When I first advanced this Teaching, it was met with doubt,

but as the letters began to pour in to me from all over the world telling of the remarkable demonstrations of health, happiness, and material and spiritual success, this doubt changed into amazement. Then as the larger magazines began to write up this Movement and investigations were made into this phenomenal Teaching, amazement began to change into acceptance until now it begins to look as if the Power "PSYCHIANA" teaches will be recognized and used throughout the entire world.

You will note that I call this Law a "God-Law." This, of course, is entirely opposed to what orthodox religions teach, and it is for this reason, I suppose, that they have made such efforts to hinder or stop this Teaching. This is very foolish though, because you cannot stop the Truth any more than you can pass a law prohibiting the Mississippi from overflowing its banks.

I don't know what kind of a childhood you had, but in all probability you were taught that God was some great unknowable personality, dwelling somewhere in the sky. And there are those today who will tell you that my definition of God cannot possibly be true. You see, if it is true and if the invisible Power I am teaching actually exists and an abundance of all sublime desires may be achieved here and now, then there isn't much use of any philosophy which teaches that these things can only be obtained "beyond the tomb." Your common sense will tell you that this universe had a creator. Now, I do not mean by that a personality of any sort, because if a visible personality ever existed and ever created this celestial sphere with all its millions of planets and suns, that personality must still exist. Scientists, however, and astronomers have swept the heavens with their telescopes and have been unable to find the residence of any divine personality up there. As a matter of fact, the entire story of God dwelling in mansions beyond the sky is erroneous. Yet it has been held for many years. It hasn't had much beneficial effect on either the world or the human race, because as I write to you, the world never was in the chaotic condition it is in today. Of course, it is very nice to theorize and dogmatize about what happens "beyond the tomb," but your common sense will tell you that the fact that we are here presupposes and proves, not an intelligence which passed away two thousand years ago, but an ever-existing Intelligence which exists and governs things here now. Your common sense also tells you that no personality of any sort can possibly have anything to do with this creation. "PSYCHIANA" has not been in existence ten years, yet the amazing facts of the present existence of the God-Realm have gone around the world and are revolutionizing human thought, changing human lives, and bringing happiness and success where discontent and failure were before. It is pitifully foolish for any ministers to state that this Power does not exist, because, as they know, my files are literally teeming with evidence that it does exist. As a matter of fact, this philosophy in the short space of one year swept across the continent—encircled the earth, invaded almost every country on the face of the globe, and wherever it went, the same results were recorded. And when ministers or others say, "Oh, that can't possibly be true," I am reminded of the story of the farmer's wife who looked at a giraffe in a circus for the first time and said, "Well, there ain't such an animal."

Now, I do not condemn the religious systems of this world because I think their beliefs, for the most part, are honestly held. Of course, that doesn't make them true, because it is very easy to believe something which is not true, and in the absence of any results of material or spiritual success following in the

wake of their teaching, I would say the evidence is all against its being true. But it was a product of the times, and superstitious minds of two thousand years ago saw God in the lightning and thunder. As a matter of fact, they "fled from the face of God" every time the lightning flashed or the thunder roared. Most of the religious structure today is a direct remnant of those old superstitions. However, as I said before, when a new revelation of Spiritual Power is needed and when the world seems without a leader, invariably the times produce a man.

Quite often it happens that the man chosen has had an experience of absolute failure prior to the time of his revelation of Spiritual Truth. And that was the case with me. I won't burden you by relating to you all the varied experiences I went through and all my attempts to find God, because those facts are getting to be pretty well known. I only know that I failed in everything I tried to do, and as I told you in the message I recently sent you, I came almost to the place where I denied the existence of any invisible creative power of any sort. But reason prevailed, and I instinctively seemed to know, just as you instinctively know, that there must exist and does exist a lot more to life than appears on the surface. I can't conceive, nor can you conceive, of this amazing universe just happening. It did not just happen. Nor did the Power which gave you and me existence ever leave this creation, but it exists here and now as the most dynamic invisible force humanity has ever known. When I had come to the end of the rope, I, for the first time in my life, did something that few people ever do. I began to think for myself. I discarded all that had been taught me about God and started in to blaze my own trail. I knew that the Truth existed somewhere. In the blazing of that trail, I found a stupendous Truth. I made a startling discovery, an amazing philosophy that today is known all over the world and that has followers in every civilized country on the globe. And every day and every week and every month and every year, as the multitudes of disconsolate men and women recognize this beacon light, they are following this Light over the storm tossed sea of their own lives and they are finding that this great Light brings to them not only spiritual satisfaction, but an abundance of everything they can possibly need here and now. In other words, I discovered who and what God really is, and let me assure you that the picture of this invisible Power-Realm is far different from the picture brought to you by present-day religious organizations.

You yourself are dissatisfied with life. There can be no question about that. You do not know of this Power. Yet you instinctively know that there must exist a great Law which is God, if you care to use that word, and which can bring to YOU in person an abundance of peace, happiness, and material supply. You did not answer my advertisement through curiosity. You answered it because you recognized, not only lack in your own life and affairs, but you also recognized the fact that somewhere—somehow—there must exist a power of some sort which can fill the aching void and the material lack which manifests in your life. YOU ARE PERFECTLY CORRECT. Such a Power does exist, and it has fallen to my lot to attempt to reveal it to you. You will find as my Lessons come to you that the Truths they contain are pulsating with power—pregnant with possibilities, and above all, they will manifest their own power to you in the moment you will let them. "Supernatural power"? Well, it never existed. There is nothing supernatural in the entire universe. All is governed by immutable, inviolable, and never-changing Law which is staggering in its immensity and which can bring to you, whoever

you are, the things you need when you know how to use this law. Furthermore, BY NO POSSIBLE CHANCE OF CIRCUMSTANCE CAN THIS MIGHTY GOD-LAW MISDIRECT OR MISLEAD YOU, AND BY NO POSSIBLE CHANCE CAN YOU FOLLOW ITS LEADINGS AND COMPLY WITH THE LAW WITHOUT SECURING THE RESULTS THE LAW ITSELF EXISTS TO BRING. Do you doubt that such a Law exists? Let me ask you a few questions.

Half a dozen homing pigeons, placed in a shipping crate in Hartford, Conn., loaded into an express cart, railroaded all one day and the next night, taken out the second morning at Salisbury, S. C., and set free, circled a few times, and then headed back toward Hartford. How did they determine their direction?

A dog is carried in an automobile 20 miles and left. He has never made the journey before in his life. He cannot read the road signs, he does not know the names of the towns, and he has no knowledge of geography or the lay of the land. On the second day, he is back home, travel worn, tired and hungry. Which of his five senses did he use in finding his way home?

A cat is placed in a basket and carried 12 miles and left in a new home. It has never been half a mile from the house in which it was born. In 24 hours it is back home. How did it find its way home?

The bee wanders in the woods in search of nectar, gets two miles from his hive, loads up, circles once or twice, and strikes a "bee line" for his hive. How does he determine direction so unerringly, and how does he differentiate other hives to the north, east, south and west?

To our knowledge, none of these creatures possesses an organ devoted to direction finding. Their sense organ appears to correspond to our own, yet we can not approach them in direction finding. Our only contact with the world is through one or more of five senses—sight, hearing, touch, smell and taste. A person born without any of them could never know he was not the only being in existence.

If the dumb creatures, too, are limited to five senses, which ones are used in determining direction? Not the sense of sight, for they do not see their distant homes beyond mountains, forests, buildings and even horizon itself. Not the sense of hearing, for homes make no sound that reaches out several miles to be caught even by the most sensitive ears. Obviously, it is not the sense of touch. If FEELING be included under the touch sense, however, or radiation, may traverse space and be detected by a suitable receiver.

Can there be a kind of animal radio system? No, it is not a radio system. It is just simply these animals manifesting unconsciously the very same Law I am talking to you about at this moment, and by the way, don't you think that a Law so stupendous in its operations that it can guide these senseless creatures in this manner can guide YOU aright? Of course it can.

Quite a while ago, my boy came running in to me so excited he could hardly speak coherently. He informed me that two robins were building their nest in a tree in our back yard, and, taking me by the hand, he pulled me out into the yard to see them. There were the two little robins tugging at a piece of string and trying to break it so that they might use it in the building of their half-completed nest in the tree overhead. Finally their combined efforts parted the piece of string, and away they flew with it to the nest. It was a foregone con-

clusion that in due time the nest would be finished, the little blue eggs appear, and, a little later, the tiny baby robins themselves would break through the fragile shells of the eggs, bringing gladness and happiness to the hearts of the parent couple who had worked so hard to sever the string in my back yard.

From the very first moment when the robins decided to mate, all their operations and functions had been guided, controlled, and directed by the same mighty Law that directs all the activities of the universe. Not for one moment did that parent couple doubt that their efforts to raise their tiny family would be successful. Not for one moment did it enter their heads that anything other than baby robins would appear. The universal, immutable Law could not "fool" them, and by no chain of circumstances could there appear instead of the expected baby robins, a NEST OF SCORPIONS.

This morning from my study window, among the beautiful hills and grain fields of Northern Idaho, I watched the farmers planting their grain. After the fields have been planted, these Idaho farmers will rest secure in the assurance that in the fall, the ripe ears of golden grain will appear. Nothing further remains for them to do with the grain. They have done their part by planting it. Should they be foolish enough to dig it up, to see whether it was growing or not, their efforts to raise a harvest would come to naught. There would be no harvest. But—resting securely in the absolute knowledge that in due season the ripened ears of golden grain WILL appear, they are at liberty to direct their efforts to whatsoever they will. The same, immutable GOD-LAW governing this entire universe has taken complete charge of operations at this point, and THIS GREAT, MIGHTY IMMUTABLE LAW WILL NOT "FOOL" THE FARMER. BY NO CHAIN OF CIRCUMSTANCES CAN HE, HAVING PLANTED GRAIN, EVER REAP A HARVEST OF JACK-PINES OR CACTUS.

It would be useless for you or me to try to catch a glimpse of what was happening to that grain while in the earth. I do not know what happens to it—neither do you. All that the farmer knows about it is that if he will till the soil, plant the seed and LEAVE IT ALONE, it will bring forth an abundant harvest—later. If I were to take two barrels, one filled with soil and the other filled with sawdust, and plant in each of them a few grains of wheat it is not hard to predict what would happen. Within a few weeks, in the barrel containing the soil, the little green shoots would appear, and, in time, the ripened ears of grain would also appear. I could watch the barrel containing the sawdust a long time, however, before any little green shoots would appear in it. Are we to infer then that the grain of wheat knows the difference between soil and sawdust? I do not think so. Neither can we infer that either the soil or the sawdust even KNOW that grains of wheat have been placed in them, for neither wheat, soil nor sawdust, of themselves have any thinking ability, or intelligence of any sort.

Now what do you think it is which causes these Idaho farmers to have such complete confidence in their harvest? What Power do you think it is which makes the grains of wheat grow in the soil and not in the sawdust? Do you think that is just simply chance? You know better than that. You know as well as I know that there must exist and there does exist an Intelligent God-Law which is absolutely and entirely responsible for that growth. Not only that, it CAUSED the growth. Here is an example of the operation of the Power of the God-Law which can be seen by you at any time and do you not think that a Law powerful enough to do that is also powerful enough to cause your little

life to grow and multiply itself one hundred-fold, and bring forth an abundance so great that you cannot use it all? Of course it can. Let us put these old-fashioned ideas of God "in the sky" away. Let hope arise anew in your breast for I am telling you that this same God-Law exists for the manifestation of every need, every material and spiritual thing for YOU, and has always existed for this very purpose.

Of course those who have an organization to sustain and those who make their living by preaching the old philosophy of God have no use for this teaching, but they can not change the vital facts. This God-Law exists and if you do not take advantage of it for the manifestation of everything you can possibly need here and now, this is not the fault of the Law. That is YOUR fault. None but a fool would deny the existence of a great God-Law, a great Creative, overruling Intelligence behind this created scheme of things. What you have not known to date is the staggering fact that the same God-Law which causes the egg of the robin to produce other robins and not scorpions, automatically can cause YOUR life to expand to such a degree that every need, every material and spiritual possession may be yours. In other words THIS GREAT GOD-LAW WHICH GOVERNED THE FLIGHT OF THE GEESE—WHICH GOVERNED AND STILL GOVERNS THE BIRTH OF THE ROBINS, WHICH CHANGES ONE GRAIN OF WHEAT INTO A FULL EAR, OPERATES WITH UNERRING ACCURACY AND CERTAINTY THROUGHOUT ALL THE AFFAIRS OF YOUR LIFE.

Now that you are beginning to understand what I am talking about, and of course, the logic of what I am saying to you appeals to you. The only thing I am asking you to do is to be 100% in earnest in your study when your Lessons begin to come to you. Your life will begin from the receipt of the first Lesson if you will allow it to. You may expect this Teaching to completely change your ideas of God and of the universe. Things that have troubled you, such as impossible religious theories, will immediately vanish, and instead of being perturbed, upset, and worried about your "soul's salvation," all that sort of thing will be water over the dam. You will begin to live a new life and the difference between the new life and the old life will lie in the fact that from now on you are living with the conscious recognition of an invisible Power which is so stupendous, so dynamic, and so great that everything you see and many things you don't see are the results of its quiet, invisible operations. One of the most remarkable things connected with this revelation of God is the number of people who have received healing from this invisible God-Realm and have received it without any effort on their part. I am writing this revised message to you on the 14th day of May, 1938. This Movement has been in existence for between nine and ten years. Of course, as I say, it is being discussed all over the civilized world, and the fact that these seeming miracles of healing, success, and happiness have come to our knowledge in such great profusion, seems to be indisputable proof that this invisible Power certainly can be used by every normal human being. Certainly I did not release this Teaching as any healing movement of any sort. Yet that is one of the most amazing things I have ever seen. In the case of perfectly healthy people, of course, there is no reason why healing should manifest. In these cases, the Law begins to work for the securing of material things, and I wish you could see but a few of the tens of thousands of letters we have in our files. You would then agree with me that this is an amazing work.

Of course, there is a big responsibility resting on my shoulders as Founder

of this Movement, and I recognize that responsibility to the very full. These Truths came to me as a blaze of all-illuminating light, and they have been appealing to the logic and reason of thinking men and women ever since. Men and women all over the world, wherever this Teaching has gone, seem to immediately see the truth of this new vision of God, and they begin to apply this great Power in their own lives. One of the beauties of this philosophy is that "blind belief" is not necessary any more. In the first place, it is absolutely unscientific. To ask a man or woman to believe something which his or her reason or mentality cannot grasp is asking an impossibility. But as might be expected from the real Truths of God, their very simplicity oftentimes overwhelms us.

To sum up a little bit, GOD IS LAW, AND A PROPER APPLICATION OF THAT LAW CAN BRING TO YOU WHATEVER YOU DESIRE TO BE MADE MANIFEST IN YOUR LIFE. IF THE DESIRE FOR MATERIAL ABUNDANCE IS THERE—THEN THROUGH THIS STAGGERING GOD-POWER, THE FULFILLMENT IS ALSO THERE WAITING FOR YOU LIFE A VAST OCEAN.

THIS VAST BOUNDLESS OCEAN OF SUPPLY AND POWER WHICH CAN BE USED BY YOU HAS ALWAYS EXISTED. IT IS A PITY THAT RELIGIOUS ORGANIZATIONS EVER TOLD THE HUMAN RACE THAT IT COULD NEVER KNOW GOD UNTIL SOME FUTURE LIFE OR SOME FUTURE PLANET. However, the human race for the first time perhaps in its history is beginning to realize that what they have called God is an invisible, dynamic, scientific Law which is immutable in its operation. MORE THAN THAT, THIS LAW CAN WORK FOR YOU. IT EXISTS FOR THAT VERY PURPOSE.

I wish I knew personally who you are. I would like to make a personal visit with you, but that is manifestly impossible. I know human nature pretty well, though, and I know about how disconsolate your outlook on life has been and probably is today.

Perhaps you feel that the black clouds of despair have gathered around your head. Perhaps life seems empty for you. If so, we have a wonderful message for you. It is wonderful news for it means a solution to all your troubles. It just simply means that peace, happiness, and abundance are being brought into human lives through the tremendous, surging Power of the God-Law as taught by "PSYCHIANA." And this Power is transforming thousands from defeated sufferers into dominant, contented persons, rich in material and spiritual abundance. This Power is here for YOUR use. The way to a larger, fuller life is in your hands. Take it. It can and does unleash a staggering Power in an ocean of spiritual, dynamic wealth of every sort and kind, when you once learn what the GOD-REALM is.

The Truths you will discover as you travel with me on our little journey together are Truths that were meant to be discovered by you. You are a human being and the vast ocean of the Power of the God-Law is for you as well as for me. THIS GREAT SLEEPING GIANT WILL AWAKEN in you the moment you recognize the fact that you can draw upon the staggering Power of the God-Law for the things you need.

Has life got you down? Are you tired, discouraged, reaching vainly for success, peace, and happiness? The God-Law can bring you wonderful news of

hope and encouragement. Perhaps you are lonely—tired of it all. Perhaps you have lost courage. Perhaps discontent and troubles torture you and have plunged you into a turbulent black chasm of brooding despair. Our message to you is a message of happiness, spiritual and material abundance. **YOU CAN DO AND BECOME WHAT YOU WILL, THROUGH THE INVINCIBLE POWER OF THE LIVING GOD-LAW.**

Has it been a hard day? Do you feel tired out? Are you weary of struggling, of fighting against the desolating forces of envy, bitterness, jealousy and fear? Then study with us for awhile and you will probably discover that you need not suffer the indignities of life. The God-Law with its buoyant Power is like a spring whose waters cannot fail. My final message to you is that life is not all meaningless. Through the Power of the God-Law you can cast aside those black clouds of despondency and look up to a Light as brilliant and blinding in its Power as the very stars that wheel in their courses. You can lift up your eyes, you can listen, and the message that will come to you is that there is more to life than the drab, enveloping grayness of despair and want. No matter how dull and spiritless things may seem to you now, you can reach out to a never-failing fountain of Power which has always ruled the lives of those who let it.

Sweeping out of the void, out of the black chasm of night, has come the thunderous message of a mighty Power. Born on the wing of lightning, pulsing to every corner of the world, the dynamic forces of the God-R Realm can come to you. **THEY CAN REBUILD YOUR LIFE.** Despair, want, and fear will fall before the unswerving principle of the Great God-Law which cannot fail and with which force of the Great God-Law, **YOU CAN BECOME WHAT YOU WILL.** This stupendous conception of miraculous Power, in a few short years, raised me from failure to become famous the entire world over. It blessed me with wealth of material and spiritual richness and abundance. It is my duty to call this way to your attention.

I think I have given you enough now to make you think. I think I have shown you why this Teaching has had such a phenomenal and remarkable growth. When the first Lesson of this Teaching arrives, you will find that it begins to unfold to you these dynamic God-Truths and all I ask you to do is to follow me closely in these Lessons, doing faithfully the simple little exercises prescribed. I want you to be in earnest in your studies, for you would not have asked me for information regarding this amazing new philosophy of God if you were not ready and anxious to be shown something of this mighty Power. So, let us hasten to our studies and start our journey together along the road which will eventually lead you, if you so desire, to the full realization of material abundance through the great God-Law.

P. S. Enclosed is an enrollment application. Please fill it out carefully, **PRINTING** your name and address. Your first Lesson will come to you by return mail. Thank you.

## REMARKABLE FACTS CONCERNING "PSYCHIANA"

- 1928—Written in the back room of a Moscow, Idaho, drug store. Dr. Robinson worked all day in the drug store and attended to mailing at night.
- 1929—Worked half time at drug store, and the other half looking after the mail, which was beginning to get a little heavy. After 3 months of this schedule, Robinson left the drug store and rented one little room. Inside of 30 days had to rent another room, then inside of 60 days more, still another room. Inside of 6 months moved to much larger building and had then 6 employees. Inquiries, one year from date of release, had come from 67 different countries.
- 1930—Moved again to own two-story building, and ran three shifts of 8 hours each. Had about 50 employees. Teaching began to grow by leaps and bounds, and it became very evident that some little known Spiritual Power was at work. Men and women's lives were being changed. Health was replacing illness. Poverty was being replaced by sufficiency. Began to take on international aspect.
- 1934—Moved to still larger building. Completely changed mailing system. Bought envelopes by the 5 million. "PSYCHIANA" now known all over the world and growing at remarkable pace.
- 1937—Advertising in hundreds of newspapers and scores of magazines. Over many radio stations. Mailing bill for 1937 was nearly \$15,000.00. Thousands of Representatives appointed throughout the world. During 1936 and 1937 many attempts were made to stop the Teaching. All failed. Thousands and thousands of unsolicited letters pour into headquarters telling of results from God-Law. No telling where Teaching will go. Looks as if it will soon be the largest and most powerful teaching in America.
- 1938—Internationally known magazines, such as TIME, NEWS-WEEK, SUNDAY SCHOOL TIMES, LUTHERAN COMPANION, PRESBYTERIAN CAVALCADE, EVERYBODY'S WEEKLY, and scores of others with many newspapers, began to give international publicity to this Movement. More and more letters began to pour in telling of the results of the Power of the invisible Spirit of God in human lives. This Teaching has taken its place for rapid growth at the head of all religious movements.
- 1939—This will be our banner year. The publicity we are receiving grows, and at the present writing we are hard pressed to keep ahead of the demand for this Teaching. We are confidently expecting some wealthy man or woman to make a substantial endowment to this Movement in order that we may be able to give it away to all who want it, free of charge.

August 29, 1939.

Dear Dr. Robinson:

I am an ex-convict just released from the Penitentiary, where many religious organizations are active, with workers making regular visits, but "PSYCHIANA" is doing a quiet work with no visible leader.

Many are filled with the desire to start life anew, putting hope in place of discouragement, a spiritual rebirth that has given me peace of mind making a rough way smooth and dark days bright.

Have you ever had tears come to your eyes simply as an expression of great joy and appreciation of good things that have come to you? I have. The last year has been the greatest of my life. I owe this to "PSYCHIANA," for from the time I began to read your literature, things have been different. What is there about "PSYCHIANA" that makes me lay aside every magazine I take and read it first? It has brought me up from the depths of despair, and there is magic in every page. At first, I could not believe as the world was so full of suffering; my mind filled with morbid fears and imaginations. I wanted to believe the truths in "PSYCHIANA" so I determined to keep on trying until I absorbed its message of love and hope and cheer. I have certainly succeeded, and today I am able to enjoy life, and to help others. Words fail to express the progress I have experienced through your help. I have received peace, an inner peace that has completely changed my world.

"PSYCHIANA" has been a true blessing.

I pray that rich blessings will attend your wonderful work for humanity.

Sincerely yours,

F. V. P.
