Dear Mr. Stafford,

I thought when I thanked you in a letter yesterday that I was through needing help, but that is not the case afteraall.

Are there still records that will show abandonments of NP track in the same general area I have been asking about? From 1900 up to the present. Dates would be important and if the track was just abandoned or whether it was sold to someone who continues to operate it.

I am enclosing the "key" sheet as before to identify the area of concern.

You've been a great help Pat, insupplying this information as it is "from the horse's mouth" so to speak and therefore accurate.

Sincerely,

Hal Riegger,
