Dear Mr. Stafford,

This is a request for further information on the track laying records of the Northern Pacific Railroad in eastern Washington state.

You've very kindly helped me with this specific information on two previous occasions. This is all in connection with a book I am writing about the Camas Prairie Railroad.

I would like to include more information on the earlier days that the railroads were built; I feel this background would be helpful to reader's understanding of the subject.

Enclosed is a copy of map you sent me keying the numbers to specific segments of tracks that were laid. Could you possibly send the more detailed record showing the mileages and dates operation began on the ones I have circled?

I would certainly appreciate this.

Sincerely,

Hal Riegger,
