AAA TOPOGRAPHY ADAPTED FROM NASA LANDSAT SATELLITE IMAGERY.

WITHIN its frame of river, sea and canyon, Oregon presents a picture that is rugged, yet exquisite. Rich in contrast, it ranges from crumpled lava fields to silken ocean beaches, from the sapphire depths of Crater Lake to the icy summit of Mount Hood. Broken, folded or blasted into being by volcanic action, the state's many faces have been softened by time, vegetation and the elements and, finally, modified by the presence of man.

Once only a hope at the end of the Oregon Trail, the Beaver State now leads the Nation in lumber production. Pretty Portland nearly bursts with roses and commerce. Pendleton is famous for its woolens and its Roundup, one of the biggest rodeos in the Northwest. Each summer Ashland goes Elizabethan with the Oregon Shakespearean Festival. The Columbia River Gorge, its south flank festooned with waterfalls, provides one of the loveliest scenic drives in the state.

The diverse terrain offers a wealth of recreational opportunities. Skiing is excellent throughout the Cascade, Siskiyou and Blue Mountain regions. Antelope, deer, elk, grouse and pheasant are common game, and the Columbia is among the Nation's great salmon streams. The beaches, some 10 miles long and 500 feet wide, rank with the finest in the country. The many units of the state park system preserve areas of scenic and historical significance as well as recreational value.
