

11-20-1984.

Hal

as I understand it, that former
NP track between Burbank and Riparia was
removed during the Lower Granite and Little
Goose Dam relocation project, about 1974/1975.
BN trains now operate ~~on~~ over PRR tracks,
between Attalia and Riparia.

Only a portion of that PRR Hay
Branch out of Riparia is left. also
understand it is used for storage and
every thing is pushed up the track from
Riparia.

Best always

ELP

Sincerely,

Hal
