Dear Ken,

I do appreciate you sending additional identification for the news items; every little bit helps.

I wrote Helen Palmer and expect some help from her now the holidays are over, in identifying some photos of the Carig Mountain RR I got at the Winchester Museum. The first book taught me to get all the identification I possibly could at the time I was collecting photos or copying them. But in this case it wasn't possible as the person with me just didn't know.

Anyway, thanks for the help. You've been great this way.

Sincerely,
