Dear Todd,

How are you coming on the Camas Prairie photos?

My writing in many places is influenced by what photos I have on hand and it's getting to the point where I'd sure like to have your's on hand.

Maybe the book will be a Swan Song for the CP. Last fall the NezPerce threw in the towel and now, I hear, the Grangeville line is up for abandonment. The offices have moved from the old station to a new little pre-fab building in East Lewiston. And, rumor has it, Potlatch would like to secure the Headquarters/Lewiston part of the RR.!

How do you like that news?

My best,
