

36-10-2

Hunt, Idaho

June 21,

6/24 Rec.

My dear Oji-san,

Please forgive my long silence, but lately how are you getting along? We are very much concerned over your health, and I feel terribly sorry for you when I think how lonely you must be in the hospital.

We have tried the best we could to help you so that you can join us here at this center as soon as possible but it is sad that nothing can be done to speed up your release. However, we have heard from a very reliable source that you are scheduled for a rehearing from June 18th to 23rd week, and you are included in this group for sure this time. I am very happy to be assured of this, and am hoping and praying for you that your answers to the Hearing Board will be so convincing that and that the conditions of your health will justify an immediate release without further

delay. I have every confidence that
you will be paroled as soon this
time. My father and mother
and are terribly anxious to have
you with us, so ~~do~~ please
do try your best, won't you?

Fumi-Claw will be coming
back here to Hunt for a very short
visit in July and not this month
as we had hoped. Won't it be
just wonderful if you can come
back at the same time and have a
really big family reunion?

I am hoping for that day to
come soon, so until then we are
praying for your health and a successful
outcome of your rehearing.

With lots of love,
Yubiko Fujii
