A SUGGESTION

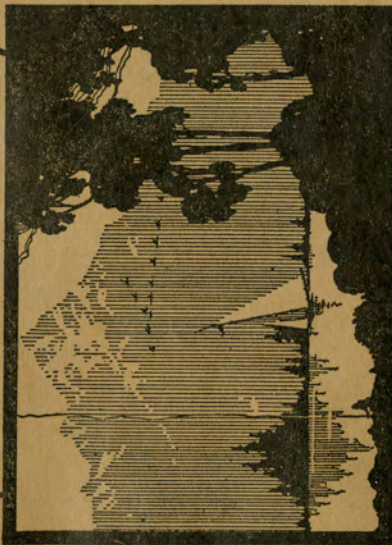

Good Clear negatives will make excellent enlarged prints suitable for framing. Have a TABOR Enlargement made from your favorite negative. They are absolutely permanent.

Our developing and finishing give the best results possible from your negatives.

Get your materials here and have us do your work which always assures you of efficient service.

We use the grades of VELOX best suited for each particular negative, which, with our unsurpassed facilities for developing by experienced workmen, result in

Satisfactory Work
