Dear Sirs:

Please send photoindexes of aerial photography coverage of the area in Idaho on the Big Creek River bounded by  $45^{\circ}N$  to  $45^{\circ}15'N$  and  $115^{\circ}W$  to  $114^{\circ}45'W$ .

I am particularly interested in the availability of large scale photographic coverage, preferably in color, of the area bounded by  $45^{\circ}06'$  to  $45^{\circ}09'$  and  $114^{\circ}50'$  to  $114^{\circ}55'W$ .

Sincerely,

Jim Gilbert  
Wilderness Research Center

JG/sl

Perhaps the enclosed flight line diagram will serve the same purpose as the photo index, in showing you our photo coverage in the area of your interest.

The VQL p.i. we can furnish you, if you would still desire it, (\$2.50), the CI however will have to be ordered from our MIO in Wash. D.C. (address in encl. pamph.) where it is stored because of material (acetate) and size.
