

ADVANCE MATERIAL AVAILABLE
FROM CURRENT TOPOGRAPHIC MAPPING
QUARTERLY EDITION - JULY 1, 1971

2 Aerial photography completed. Information available from Pacific Region Engineer, U. S. Geological Survey, 345 Middlefield Road, Menlo Park, California 94025, or Map Information Office, U. S. Geological Survey, Washington, D. C. 20242.

3 Basic horizontal and vertical control surveys completed. Descriptions and unadjusted coordinates and/or elevations are available. Price is 50 cents for each 15-minute quadrangle horizontal or vertical control list. See Notes.

P 4 Prints of manuscripts compiled from aerial photographs are available at 50 cents each. Contours are shown in areas suitable for stereocompilation. Letter "P" indicates quadrangles on which contouring is not complete and which will require fieldwork to complete the contouring.

5 Field mapping and checking completed. One color unedited advance prints available for 50 cents each.

6 Final drafting completed. Partially edited one-color advance prints available for 50 cents each. (If shaded see explanation below).

• Maps published since latest edition [OCT. 1970] of index to published maps. See statement below regarding published maps. (If shaded see explanation below).

Maps of areas shaded will be (or have been) published at the 1:62,500 scale ONLY. However, 1:24,000 scale advance prints in 7.5-minute units are and will remain available, with accuracy and contour interval appropriate for that scale. Each such 7.5-minute print is 50 cents, or \$2 for prints covering a complete 15-minute quadrangle.
