

University of Idaho

Inter-Office Memorandum

To Barbara Petura, UI News Bureau

From K. M. Sowles

Subject Taylor Ranch Visit

Date August 6, 1975

It has been some time now since the University hosted the three women from NFPW and yourself at the Taylor Ranch. Having had no communications from you since then, we can only assume the trip was not satisfactory.

Dean Ehrenreich and myself would appreciate your comments on the trip and having an opportunity to review all news articles, film, etc. resulting from this visit.

As you are aware, the College contributed substantially toward this venture, both in dollars and time, with the understanding the University would receive a good deal of favorable publicity. To date we have only received correspondence from Jean Cox. We would like to have the addresses of Cornelia Bowe and Kathryn Gress so we can write for their comments.
