

WILDERNESS PROJECTS

1976 - Current

- J. Fazio Wilderness information sources and channels utilized by recreationists in the Selway-Bitterroot Wilderness
- E. Ables Bighorn sheep research in the Idaho Primitive Areas
- M. Hornocker Ecology of the wolverine in northwestern Montana
- J. Peek Comparison of the use patterns for populations of bighorn sheep, Glacier National Park
- W. McLaughlin A conceptual framework for understanding recreation - Fishbein Model and wilderness recreational use
- M. Hornocker Ecology of the black bear in west-central Idaho
- C.M. Falter Aquatic ecology of Idaho Primitive Area streams
- M. Hornocker The effects of fire on marten distribution and abundance in the Selway-Bitterroot Wilderness
- M. Hornocker Seasonal and diurnal movements of the black bear in west-central Idaho
- E. Ables Population dynamics of bobcats
- J. King Erosion and sediment production associated with forest management in the Gospel Hump area of Idaho
- J. Peek A study of big game resources in the Gospel Hump area of central Idaho
- T. Bjornn A study of the fish resources of the Gospel Hump area of central Idaho
- C. McKetta, The RARE II process in Idaho: A procedure for evaluating resource
C. Hatch, trade-offs
L. Medema,
K. Christophersen
- K. Christophersen, The RARE II process in Idaho: A case study of changing
C. McKetta roadless area boundaries

To John H. Ehrenreich

From Kenneth M. Sowles

Subject Some Projects in the Wildreness Research Center 1975-79 Date 5/8/78

"Social Behavior & Migration Patterns of Bighorn Sheep", James Bennett 1975-1977

"The Effect of Altitude upon Various Physical & Reproductive Factors in a Population of Peromyscus maniculatus", Charles L. Elliott 1975-1978 (77 & 78 through BYU)

"Some Aspects of Blue Grouse Summer Ecology in the Idaho Primitive Area Dendragapus obscurus", Allen Steuter 1975

"Meristic Characteristics & Spotting Patterns of Cutthroat Trout", John LeVesque 1975

"Aquatic Ecology of Selected Streams in the Idaho Primitive Area", Ed Bittner 1975-1976

"An Ecological & Taxonomic Investigation of the Subspecies Peromyscus maniculatus serratus", Thomas Thurow 1976-1977

"Habitat Influences on the Weight Cycle of the Columbian Ground Squirrel", Steven Peck 1976

"The Ecology of Pocket Gopher in the Idaho Primitive Area", Steven Anderson 1976

"Documentation of Historical Resources in Idaho Primitive Area, Big Creek Drainage", John Hartung 1976-1977

"Comparison of Backcountry & Wilderness Recreationists' & Preferences", Thomas Glassfor 1977

"An Investigation of Lungworm Infestation & Intermediate Host Presence on Two Bighorn Sheep Ranges in Central Idaho", Kate M. Wynn 1977

"Grizzly Bear Habitat Use Research in Glacier National Park", Rick Myers 1977

"Study of the Territorial Habits of the American Kestrel in the Big Creek Drainage in the Idaho Primitive Area", Lisa Lombardi 1978

"Beliefs & Attitudes of Idaho Wilderness Users", Stacy Young 1977

"Stillinger Herbarium Collection of Fungi", Manfred Mielke 1978

"Crotalus viridis Subspecies in the Idaho Primitive Area", Joel Bender 1979

"Study Beaver Distribution, Abundance & Habitat Characteristics Along Big Creek Drainage,
Idaho Primitive Area", Keith Haley 1979

"Watershed Study Proposal for the Idaho Primitive Area", Timothy Monahan 1979
