Dear Dr. Yeo -

I hope that you and yours are doing well. I am fine and am finishing up my firefighting season, here at Krassel. I expect that you have been very busy up til now, with all the fire activity at the ranch and in the area. At the same time, I suppose that you are busy readying the place for winter.

I am writing to mention again, my desire to make a commitment to taking care of the Ranch. I hope that you will keep me in mind for this work. Also, if you do run into a jam for this winter, let me know. I wouldn't be against

beginning this soon.

If nothing else, I am planning a late fall trip with my mother, through the Northwestern states, and will try to stop in at Moscow in late October or early November.

Take care, and I hope that your fall goes well.

Sincerely,

Phil Roley
