Jeff,

I hope you received the message I left with Arnold's. Yes, it's true I'm probably up for one more winter. By the way I'll not be alone. Kristin Hunter, the girl I've been working with all summer will be coming with me.

I hope you can arrange a way for her also. As you may already know she is a New Zealand citizen. However, her visa allows for employment with the university; which she is at this time.

We have finished, for the time being, the elk winter range project. At the moment the Forest Service is keeping us busy hiking elk-use transects. They would like to keep us going until snow flies, i.e. end of Oct. However, given the right circumstances we'd like to leave sooner. Keep us posted. Thanks for keeping me in mind,

Ray
