June 25, 1993

**To: Presenters, Symposium on International Wilderness Allocation,  
Management and Research**

**Subject: 5th World Wilderness Congress, Tromsø, Norway  
September 26 - October 2, 1993**

Dear Colleagues:

Enclosed is a final program for the International Wilderness Allocation Management and Research Symposium for the 5th World Wilderness Congress in Tromsø, Norway. Some of the titles have been edited for appeal. Please review the program carefully and transmit your corrections via telephone, 208-885-6442, or fax, 208-885-6226. It will probably be difficult to contact me directly, but my secretary, Nancy Matthews, will be able to take your information or answer questions.

The symposium proceedings will be published and I've enclosed an instruction sheet and a form for you to complete assigning copyright to the WILD Foundation. Please sign the form, whether or not you are a co-author or sole author, and return it. We will assemble the multiple copies for co-authors and submit them to the WILD Foundation.

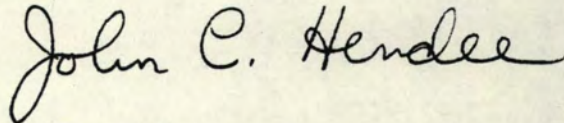

For co-authors, please confirm who will make the presentation. We will need a short biographical statement (one minute maximum) suitable for reading and publication in the proceedings. If at all possible, please illustrate your presentation with slides. A side-loading projector will be provided in which cardboard or plastic mounted slides may be used; it will not fit a standard round carousel or handle glass slides. Please make contact with one of us as soon as you arrive in Tromsø, to make arrangements to load and preview your slides.

Because of time constraints your presentation should be summary in nature and intended to stimulate discussion. Please make it no longer than 14 minutes to allow one minute for introduction and five minutes for discussion. Moderators will be strictly enforcing the 20-minute total time limit for each presentation. If for some reason, the session falls behind, it will be necessary to shorten presentations to 15 minutes. Please bring approximately 100 copies of your presentation for distribution to the press and symposium participants at the beginning of the symposium.

This week you should have received a registration booklet. Be sure to register directly with the congress. It would be useful to us if you would let us know the times you will be at the congress and where you will be staying.

We look forward to seeing you in Tromsø.

Sincerely,

John C. Hendee, Dean  
College of Forestry, Wildlife & Range Sciences  
Co-Convener, International Wilderness,  
Allocation, Management and Research  
Symposium
