Dear Holly & Jim -

Thanks a heap for the picture of the 'boys'. That's a terrific shot - I'll frame it for the office.

I've meant to write and thank you for your super cooperation and help in the filming. You two are great! I've learned that film makers change their minds and their programs all the time, often not informing anyone else. You two respond to this with your characteristic efficient manner, never letting it bother you. I sure appreciate it.

over

I hope your situation with the College and University has smoothed out! You are in a difficult situation to start with, then to have all the layers of all the 'chiefs' makes it almost impossible to function. Hopefully things have made a turn for the better for you.

Thanks again for all your help.
Let's keep in touch.

Best,
Maurice
