

Cold Mews
Aug 8

Hi,

I'd planned to send
this note with the
interns Friday morning
but too much rush as the plane
arrived early.

Just wanted to say how much we
enjoyed having the crew... all good
workers + pleasant company.
Cliché's but true.

I overheard on the radio that
Mike's car will be waiting Friday morning.
Hope the weather's flyable... as know
they're looking forward to civilization
re entry.

Eve Von Staden passed through
their last night. She was very
disappointed that the wilderness
gathering had been cancelled.

Regards to Mike, Dan + Lori.

Hope your summer is going well. Let us know* if you're ever going to be riding through this way.

Margaret + Roy

*if you can, if not it doesn't matter but we may be out on trail.

M.
