

3/8/85

DEAR Taylor Ranchers:

Here's a couple of the sheep pictures I took while "working" the great Thanksgiving day sheep classification assignment. You can nail 'em up on the wall, burn 'em or use them for target practice but its my way of sayin' thanks for the hospitality.

Heard the studs' goin' well Gary and Jim I saw your name in Time magazine; Boy you guys are really startin to be celebrities! Hows your study going Holly? And Tim - hows the magazine rack holdin' out?

Work has been hectic but then its better than being slow. We havent had to feed any elk this winter - just gave the rancher's replacement hay instead. The Deer on the West side (Hells Canyon, Council) had it pretty tough though.

My planes still not flying yet but its gettin' closer every day. Will try and stop in for some official business when its finally airworthy.

Take care,

Kurt, Walt + Linda
