

MEMORANDUM FROM
JAMES M. PEEK
DEP. FISH & WILDLIFE RESOURCES
UNIVERSITY OF IDAHO
208-885-7120

October 20, 1989

TO: Jim & Holly

SUBJECT: misc.

Enclosed is a photograph that Pat took of me working extremely hard with one hand and Jim barely working at all with two hands on the misery whip. As luck would have it, Jim is recognizable by most people, while only those who are familiar with my sleek physique from behind will be able to recognize me. Of course, everyone will recognize that tree as one laying across the trail, just up stream from the Jim&Jim memorial stump!!

I don't know what is going to happen about a fall elk hunt. I was really trying to set aside some time in mid-Nov to drift into the Acorn Creek area, and I am still going to try to do that if you are still interested. I'll have to keep in touch on that for now. This fall has turned into the typical rat race for us, as you can guess.

I am now going to try to fly my graduate class into the Taylor Ranch, 19-22 Nov. I'll keep you posted, but wanted to ask if this time might be okay with you. We'll probably have quite a number-say 15. I want to fly with McCall Air Taxi if possible. Let me know what you think. I'll call you when we get arrangements firmed up, but I am not going to do anything until I hear back from you about that.

We're going thru some gyrations, what with Ables' abrupt resignation, but I think there is a silver lining in that cloud as Falter is working things out so he might be able to step in, and hopefully Ernie will start feeling better.

Hang in there. I wish I could spend more time with you.

Best wishes,
