Dear Jim and Holly:

Thank you for your letter. Your Research Associate position(s) in the Wilderness Research Center will terminate when you resign. It will not transfer to the Experiment Station or anywhere else in the college. However, should a faculty member have money in a grant and desire your expertise, you may be reappointed as a Research Associate in that department and with that faculty member.

I hope this answers your question. If not, please let me know.

Sincerely,

Leon F. Neuenschwander
Associate Dean for Research
