Subject Gabion pay for Jim & Holly Akenson

Date 5-4-89

According to Dick I was told to pay both Jim & Holly at total of 44 hours @\$9.03 per hour. I submitted time slips as indicated on my first memo. I have attached copies of the University payroll records for the periods March 3 and March 17, 1989, which would be the dates they should have been paid. The payroll records show that they were each paid an extra 40 hours on March 3, 1989 and an extra 4 hours on March 17, 1989. If they still have questions I would suggest that they send in a copy of their pay stubs for March 3, 1989 to be verified. That is the slip that would reflect the 40 hours. I noticed they attached slips for the March 17, 1989 period which does reflect the extra 4 hours.

*Jim & Holly -*

*Ref. your comment in letter of April 30, I tried to find out what is "still not resolved." It's all a mystery to me, and the dean's office apparently thinks things are square. If not, perhaps you could detail a concise account of the problem + proposed solution.*
