

**INTER-OFFICE MEMORANDUM  
UNIVERSITY OF IDAHO  
WILDERNESS RESEARCH CENTER**

November 2, 1987

**TO:** Dick Botger, FWR Accounting  
**FROM:** Ed Krumpe, Director   
Wilderness Research Center  
**SUBJECT:** Acknowledgement of a gift to Taylor Ranch

---

Mr. Mike Hillman, H C 69 Box 3900, Cambridge, ID 83610, has donated a McCormick No. 9 Mowing Machine to the Taylor Ranch. Although it was manufactured in 1947 it is in very good condition and will serve as a valuable source of replacement parts to the No. 9 that we currently use at Taylor Ranch. When we first began looking for one of these mowers Mr. Hillman wanted \$300.00, which is the average going price for ones that are still useable.

After meeting Jim and learning about how we still do things "the old fashioned way," he offered to donate it to the University if we would send him an acknowledgement that he had made a donation worth \$300.00. Would you please advise me on how to secure such an "official" receipt for Mr. Hillman? I will, of course, write him a nice thank you letter. Thank you.

cc: Jim Akenson 

Mike Scott and I to fly down from Moscow, early on July 25. The 2 fellows and possibly a 3<sup>rd</sup> from EG&G and Tom Reinher from Id. Fish Game will fly in that morning also. Holly, will you please order groceries to feed the whole crew during our stay (Mon-Wed.) They will all fly out on July 27 early in the morning. The flight that comes to pick up the dean and Mike Scott will bring Leon Stenenschwander and Edrich in. I will stay on with them and then fly out with them on July 29 early in the morning. Leon said that he will bring food for himself and Edrich, but you might buy some extra just in case. A barbeque on 2 would be in order for each group.

Kerry's schedule is still too full to come in, but he is going to get material and bands and I'll bring them in to build traps during July 25-29 period. We should be able to get that started.

Jim Milhjan has been impossible to reach. I've tried a dozen times and he has returned my calls a couple, but missed me. I'll try him tonight at home and see what I can do.

That's all there is to report out here. Hope haying has gone well. I'll try to call on 7/24 and see you on 7/25. Hello to Ray and the interns.

Cheers,

Oz

P.S. I notice the interns are planning a days off trip to Righton Crags 7/28-31. Any chance they could shuffle it to 7/29-8/1 to visit with Edrich. No big deal as he'll be there all day 7/27.

P.S.P.S. - Enclosed is a copy of a banding/trapping permit to keep at Jaybor. I forgot to leave it with you.
