

University of Idaho

Inter-Office Memorandum

To Jim & Holly

From Jim Wood UI News Bureau

Subject Taylor Ranch TV Project

Date Wednesday 9/30

Well Hello!

I bet if you two hadn't run into me on campus this summer, you would have thought I had fallen off the face of the earth. Obviously from the enclosed material, you can see that the Taylor Ranch TV Project is not dead, it's just been on a long hiatus. I've never made apologies to the university or the News Bureau/Terry for the delays, as much of the reason for the delays can be attributed to having to take care of short-term, regular News Bureau tasks while the project sat unfinished on the backburner. But I do feel an apology is necessary for you two and for Ed. I've strung you guys along for too long now. Which is all the more reason that I'm happy to report that it's now full-speed ahead on the remainder of the project!!!

The documentation enclosed here may seem a little overblown, but we are planning on submitting the final project to CASE (Council for the Advancement and Support of Education) for its regional and national awards competition. The competition requires extensive documentation, so that's what we're gonna give em.

You can review this at your leisure (which I realize is a scare commodity.) Please contact me or Ed with any corrections, as this is the information I will be using to compile scripts for the remaining two productions. Next in line is the U.S. Information Agency piece. 5 mins. -- for possible distribution overseas. Scripting is in progress.

Take care,

Returned 10/20/87
