Hello Jim,

Thank you for your e-mail. I was able to receive it without the picture. That was nice of you to try that. Yes my family would be interested in having the Mounts that you do not want for your museum. I have some pictures that my Mother took along with many others of the Taylor Ranch in the beginning. I would be so happy to show them to ;you and if you wanted some of them for ;the museum I would have them copied. We would be delighted to visit with ;;you and Holly any time. We will be here in McCall until about Nov. 1. Nancy Ioset

I'll try to send this without the photo...please see below.

--Jim.
