*Dave - This letter went  
to the attached list of  
people.*

Dear David:

I want to inform you that we have hired David Duncan as Resident Manager for the University of Idaho Taylor Ranch Wilderness Field Station. David has degrees in both Wildlife and Education from the University of Idaho and his wife, Stephanie, also has an Education degree from the University of Idaho. We are pleased that David and Stephanie plan to live at Taylor Ranch until at least June 30, 1997.

As activities increase with the beginning of the summer, I thought it would be useful to provide you with the Wilderness Research Center's policies concerning visitation and use of Taylor Ranch. Of course, I do not expect you to take responsibility for enforcing these policies, but I thought you would be in a better position to answer any questions with these policies in hand.

Thank you for your cooperation. Please call if you have any question about wilderness research and education programs at Taylor Ranch. We look forward to continuing our cooperation with you and your organization.

Sincerely,

John C. Hendee, Director  
Wilderness Research Center
