Subject: Academic Courses at Taylor Ranch
Priority: normal

John Hendee, Chuck Hatch and I have been exploring ideas to expand our academic use of Taylor Ranch. Potential course ideas include Wilderness Ecology, Winter Wilderness Ecology, Wilderness Wildlife Ecology, Fire Ecology, Landscape Ecology, student internships/research projects, and high school advanced placement courses which could be used to recruit students. Options for getting in and out include hiking in, flying in and out, and rafting out with an outfitter. We are wide open to any new creative ideas to better use Taylor Ranch.

We would like to get faculty who are interested in teaching at Taylor Ranch together in the next few weeks to explore possibilities. If you are interested, please give me a call by the end of this week and we will try to find a meeting time that works for everyone.

Welcome back!

Alton
