John Hendee
Director, U of I Wilderness Research Center
Room 18A, CFWR Building
Moscow, Idaho 83843

Dear John,

Thank you for taking time out of your busy schedule to discuss the Taylor Ranch with me today.

I am enclosing a map of our area and the description.

We are curious to know if you are interested in utilizing our services for your operation on an annual basis.

We would provide stock and wrangler along with caretaking, irrigating, etc. This would save you needing to own stock and hire employees.

If you would be interested in this proposal, we could trade use of the Taylor Ranch for these services or come up with a lease agreement.

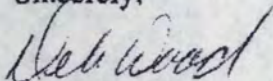

✓ You explained to me that you do have David and Stephanie Duncan caretaking at this time. If for any reason this does not work out for either of you, please contact us and give us the opportunity to apply for the position.

✓ Thank you for letting us utilize the airstrip while Cabin Creek airstrip is unusable. If we need to land, we will contact David through Arnold Aviation.

I look forward to reading your policies and annual report.

If you are ever in Challis, please give us a call.

Sincerely,

Deb Wood
American Adrenaline Company
Taylor Ranch Outfitters
