Dear Dave:

Was the individual who flew the elk and deer out via Arnolds Todd Fluckiger? We need to make a note in our file in case any questions come up related to the incident you mentioned. Thanks for your help.

Pete Nelson of Middle Fork Aviation out of Challis (new company), requested permission to land at the ranch when Wayne Minshell of Idaho State University is doing research at the ranch. Dick Bottger gave his consent but said you should be contacted in advance of any trips.

I'll bet it's beautiful at the ranch right now. A lot of snow fell in a very short time here this a.m. but turned to rain; can't seem to make up its mind. Can just imagine what it's like there w/that thick blanket of quiet. Have a great holiday.

Sincerely,

*Nancy Matthews*
