Re: Meeting of Taylor Ranch research cooperators

Dear Cooperator,

I'm inviting you to a meeting to address research and management opportunities for Taylor Ranch. Representatives from Idaho State University, Idaho Department of Fish and Game, U.S. Forest Service, EG&G Idaho, Inc., and University of Idaho plan to attend. This meeting will give us a chance to find out what has been done and is being done at Taylor Ranch. We can coordinate our research, teaching, and management activities to make the best use of personnel and reduce costs. Also, we can discuss ideas for new research and address agencies' management needs that can be accomplished through Taylor Ranch.

We'll meet January 24, 1991. The meeting should run from 0800 to about 1130. At noon, EG&G Idaho (either Greg White or Dale Bruns) will give a presentation of integrated ecosystem monitoring in Chile and Wyoming and initiated at Taylor Ranch. At 3:30 p.m. Wayne Minshall, ISU, will present a seminar about ongoing work in Big Creek concerning stream responses to the 1988 fires. We'll meet in the College of Forestry, Wildlife and Range Sciences Building. Specific times and rooms follow:

Cooperators Meeting (Room 200, 0800 - 1130)

Seminar: "Integrated ecosystem and pollutant monitoring program for wilderness" Greg White/Dale Bruns, EG&G Idaho (Room 10, 1200 - ~~1320~~¹²⁵⁰)

Seminar: "Aquatic systems monitoring: responses to wildfire in wilderness" Wayne Minshall, Idaho St. Univ. (Room 10, 1530 - 1620)

I hope to see you there. I'll get a finalized agenda to you early next month.

Regards,

Jeffrey Yeo
Scientist/Manager
Taylor Ranch Wilderness Field Station
