Dave Lewis came in from Chamberlain Basin - He has claims on Monumental Creek. He brought on a quartz sample... richest piece ever seen.

July 22, 1915

The Ramey Ridge people (miners) are doing their annual assessment work. There are no big sales on this season. * There are many elk through out that country and they have increased rapidly ^{aging} ~~throughout that country~~ ^{the past few} years, in some places they are a nuisance making raids on gardens and grain fields. * The mountain sheep have been dying off, being affected by the scab.
