Dear Jeff,

I am writing to cancel our reservations for June 29-July 6.

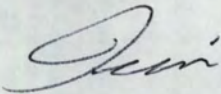

Following consultation with David Bennett, I have decided to attempt redd location and excavation on the St. Joe River.

The boys and I attempted to locate redds in upper Big Creek last week with little success. We found only one false redd on Jacob's Ladder Creek and none in Lick, Big, Belvedere or Beaver creeks. With little money left in the budget, we decided to attempt sampling on the St. Joe and try to find redds in unentered drainages.

Needless to say, Danny and Nicholas are quite disappointed in not being able to visit Taylor Ranch.

Our best to your family and Tim. I hope your summer is going well and we'll see you in the fall.

Sincerely,

James W. Garrett
