Inter-Office Memorandum

To K. Sowles

From S. R. Peterson

Subject Manuscript Attached

Date November 15, 1977

Find attached a revised copy of Tom Thurow's paper on the raptors of Big Creek. I have edited it a fair amount and have received favorable reviews from M. Hornocker and D. Johnson for publishing as a Station Note. I have also requested O. Garton to examine it.

I have sent copies on to S. Heib and A. Moslemi for their use. If Ali wants to put it out as a Note, the figures will have to be reworked by the Station graphics specialist.
