18 January 1985

Mr. Brad Harvey  
Northwest Cartography  
9618 Roosevelt Way, NE  
Seattle, WA 98115

Dear Mr. Harvey,

Enclosed is a tape containing two files of classified Landsat data. The first file on the tape corresponds to the Green Mountain quadrangle, while the second corresponds to the Olney quadrangle. The following specifications apply to the tape:

9 Track  
1600 BPI  
Unlabelled  
8 bit ASCII  
1 record per scan line  
1 record = 1 block

Bob Bailey has informed me that you would be able to copy the two files on this tape onto a Data General cassette tape for use with his system.

Please feel free to call me at (503) 754-3056 if I can provide you with any additional information.

Sincerely,

A handwritten signature in cursive script that reads "Bill Ripple".
