

# Questions about GIS / RS

9 MOSS program - how know what each prog offers, how know avail prog?  
↳ which version? Can use MOSS w/any system - COMARC?

<sup>OSU WSU</sup> Reformat programs or data for entry w/UI system. Cost?  
Can put contours, streams, point locations in raster format (with LANDSAT)?

How get defense topog 1:200' on tapes? How to get compatible  
Accuracy loss/gain of converting raster ↔ polygons  
and is it possible both ways; cost comparison.

Get info on UI mainframe machine/model/language/phy/pkg  
& on COMARC machine & model/phy/pkg (tapes)

VICAR/IBIS hookup between UI & WSU? Costs  
Use of PC for transfer of input data on PC to DG (need imitator or program)  
MSS Data unsupervised classification <sup>50-100 classes</sup> cost of tape? <sup>cost: classif, group, map</sup>

Training session <sup>available</sup> on computer? UI, ERSAL, COMARC  
Interactive mode? - put info in, immediate screen display of results/changes?

Field use - input info & access info w/PC? Cost

② can put on computer compatible tape for use w/UI computers (and diskette for UI)

Run <sup>copy of</sup> prog at UI for <sup>supervised</sup> unclassified classif → land cover types (manual available)? (convert to our format's <sup>times</sup> cost)  
= grouping to resource applications (MARSYM)

gen Q: can run diff prog on same computer? D.G (COMARC) - run MOSS or PYXSIS/

<sup>OSU/WSU</sup> What programs are available for Nat Resources data

<sup>Leck OSU</sup> What does TOPOG do? what kind of input needed, how input?

<sup>OSU</sup> Prog for use PC to manipulate data directly?

<sup>Hultg</sup> How can we purchase MSS tapes (EROS?), search for available in public domain

<sup>Leck</sup> For spectral grouping & A Photo interp - use FS or infrared
