Jim and Holly Akenson
Taylor Ranch Field Station
Air Star Route
Cascade, Idaho 83611

Dear Jim and Holly:

Enclosed is the packet of reprints of our work on the Salmon River that I promised to send to you. If you don't already have it, you might also want to obtain a copy of Seyedbagheri, K. A., M. L. McHenry, and W. S. Platts. 1987. An annotated bibliography of the hydrology and fishery studies of the South Fork Salmon River. Gen. Tech. Rep. INT-235. USDA Forest Service Intermountain Station, Ogden.

I understand from Dale Bruns that you will be visiting Idaho Falls beginning the 19th of October. I hope you also will be able to swing by our place at least for a day to help us work with the horses. If you need a ride from Idaho Falls, we would be happy to provide it. Perhaps we could pick you up in the afternoon that you finish at EG&G. Of course we will provide food and lodging during your stay. Also, if you would like an opportunity to present some of the results of your work on Big Horn sheep or talk about Taylor Ranch, I could arrange a slot in our Departmental seminar series. Let us know your plans as soon as possible so we can make definite arrangements. If we can be of any other help, be sure to ask.

Best regards,

G. Wayne Minshall
Professor of Ecology & Zoology
