Jim & Holly,

Thanks for the note/news about January '86 & trip to Taylor Ranch to discuss your projects on the ground.

Leonard said for me to think about the 2nd & 3rd weeks of the month -- something to do with the mail plane schedule? Please let me know of the best schedule for you as soon as you can. I'm to review, for the Dean of Research, ERSAL's role in OSU research at about the same time, week of 12th or 19th January '86 (will take 3 days for me to go to Corvallis, participate in review, and return to La Grande). I'll need to have specific dates when you want us there so's I can tell Dean Frakes which dates I can meet with the reviewers in Corvallis.

Hope everything's going well for you since your "vacation" to the "outside".

By the way any specifics as to what we'll be discussing/looking at, when, why, and for whom will help me.

Sincerely,
Donavin A. Leckey
