

## **Colden Baxter**

**Idaho State University, Dept. of Biological Sciences  
Assistant Professor**

**Research focus:**

- Aquatic – terrestrial ecological linkages in a wilderness watershed: food webs and energy flows following wildfire
- Ecosystem-level integration: multidisciplinary mapping of a wilderness watershed to generate a spatially continuous biophysical perspective and identify potentially important patterns within and among information layers

**Graduate student: Rachel Malison, 2 undergraduate researchers**

**2005 - present**
