

February 3, 1975

Dr. Roger Bay, Director  
Intermountain Forest and Range  
Experiment Station  
507 25th Street  
Ogden, Utah 84401

Dear Roger:

Attached is a copy of a proposal for research "An Analysis of Opportunities for Communications and Education Directed at Reduced Recreational Impact on the Idaho Primitive Area".

After review, I am sure you will agree that this proposal has significant importance not only to the Idaho Primitive Area where the main base-line data would be collected but to all the Intermountain Region.

I realize the Forest Service is in no better financial health than the University; however, I do think it appropriate you consider some cooperative funding of this project due to its mutual benefit.

Please let me know as soon as possible what, if any, financial contribution your organization can make. Your time and help will be greatly appreciated.

Very sincerely,

John H. Ehrenreich, Dean

Mr. Steve Yurich, Regional Forester  
USDA-Forest Service  
Federal Building  
Missoula, MT 59801

Dear Steve:

Attached is a copy of a proposal for research "An Analysis of Opportunities for Communications and Education Directed at Reduced Recreational Impact on the Idaho Primitive Area".

After review, I am sure you will agree that this proposal has significant importance not only to the Idaho Primitive Area where the main base-line data would be collected, but to all wilderness and roadless areas throughout Regions 1 and 4.

I realize the Forest Service is in no better financial health than the University; however, I do think it appropriate you consider some cooperative funding of this project due to its mutual benefit.

Please let me know as soon as possible what, if any, financial contribution your organization can make. Your time and help will be greatly appreciated.

Very sincerely,

John H. Ehrenreich
